Each of the numbered instructions below corresponds to form items that require further explanation. Supplemental agreements will be numbered consecutively following the original (#1) for each fire. Supplements may be added at any time. Where insufficient room is available for necessary information, additional sheets or addendums may be added. Small revisions to this agreement may be completed on a single page, describing the change to the original agreement, and obtaining new signatures from those involved.

A Master Cooperative Wildland Fire Management Agreement exists between all major wildland fire protection agencies in the <insert area>. This agreement authorizes general mutual aid, including reciprocal and cooperative fire protection services elaborated upon in local annual operating plans. Other cooperative agreements exist between fire management agencies that authorize fire management services between Agencies at the sub-geographic level. The objective of the Supplemental Fire Suppression and Cost Share Agreement is to establish and document the cost sharing and basic organizational structure in response to specific fires.

Supplemental Fire Suppression and Cost Share Agreements will be negotiated between agencies involved in specific on-the-ground fire suppression activities. These agreements are mandatory when more than one jurisdictional responsibility for fire protection is affected by the placement of the fire. The agreement will not affix liability for fire cost payment by either Agency based upon responsibility for the fire origin. The designated representatives of each Agency with forces on the fire are responsible for completing and signing the agreement.

1. List the fire name agreed upon by Parties involved.
2. Give the origin or best estimate of origin location.
3. Estimate the size at the time of the Supplemental Agreement.
4. List the Parties involved in fire suppression operations, and respective agency fire numbers.
5. List the date and time that the agreement is in effect. That time could be prior to or following the time that negotiations are made for the agreement.
6. Check the appropriate command structure for the fire. Definitions:

   UNIFIED COMMAND – A method for all Agencies with jurisdictional responsibility to contribute to determining the overall objectives for the incident; interagency ICS team structure.

   SINGLE COMMAND STRUCTURE – One Agency manages the incident with liaison and concurrence of objectives from other involved Agencies.

7. List the appropriate personnel filling ICS positions on the fire.
8. List any special conditions or resource objectives, i.e., dozer restrictions, mechanized restrictions, bald eagle nest, high value plantation. Operational responsibility for the fire will be defined in this
section (if appropriate). Respond to this item only if Agency forces have specific segments of the fire. This information will not determine cost responsibility, unless specified in Item 11. Examples are: Divisions A and B; all structural protection areas; specific campground.

9. List the Agency having legal responsibility for structural protection, and any pertinent control information or contacts.

10. List operation conditions or directions pertaining specifically to: air operations, base camp and food service, and fire investigation. Costs pertaining to these decisions shall be documented in Item #10.

11. Fire suppression costs shall be determined from the information supplied in this item. There are several ways to determine the best cost share mix. A, B, and C are typically used on smaller, less complex incidents on lands with similar values and uses; D and E on larger, more complex incidents, such as those with both wildland urban interface and wildlands:
   A. Each Agency pays for its own resources – fire suppression efforts are primarily on jurisdictional responsibility lands.
   B. Each Agency pays for its own resources – services rendered approximate the percentage of jurisdictional responsibility, but not necessarily performed on those lands.
   C. Cost share by percentage of ownership or Agency jurisdictional responsibility.
   D. Cost is apportioned by geographic division or by percent of effort. Examples of geographic divisions are: Divisions A and B (using a map as an attachment); privately owned property with structures; or specific locations such as campgrounds.
   E. Reconciliation of daily estimates (for larger, multi-day incidents). This method relies upon daily agreed to cost estimates, using Incident Action Plans or other means to determine multi-Agency contributions. Reimbursements can be made upon estimates instead of actual bill receipts.

The following are not reimbursable:
   - Responsibility for tort claims or compensation for injury costs.
   - Non suppression rehabilitation costs are the responsibility of the jurisdictional Agency.
   - Non-expendable property purchases will be the responsibility of the Agency making the purchase.
   - Support costs (i.e. office dispatchers, warehouse workers, etc.), unless they are charging to an emergency code assigned to the incident.

The cost centers that should be considered in this agreement:
   - Fireline Resources: Dozers, engines, fallers, transports, water tenders, hand crews, line overhead.
   - Fire Camp Operations and Support: Overhead, buses, camp crews, communications, food, refrigerator units, showers, toilets, water trucks, cache supplies, rescue/med, camp facility.
   - Air Support: Helicopters, (with support) air tankers.
   - Cost apportionment by period (i.e. state mobilization or conflagration, Fire Management Assistance Grant declaration, additional jurisdictional involvement).

12. List any specific conditions relative to this agreement, such as: dispatch procedures, one Agency representing another, notifications, incident information, coordinated intelligence, etc.

13. Signatures of authorized personnel.

14. List any attachments to the agreement. Give the date of the last revision or former Supplemental Agreement for the same fire.
COST SHARE AGREEMENT

The purpose of this agreement is to provide for a coordinated cooperative fire suppression operation on this fire and to describe the cost divisions. This agreement is a supplement to the Master Cooperative Wildland Fire Management Agreement or (list other agreement and number) between the Agencies listed.

1. Fire Name: ______________________ Origin Date ______________ Time ______
2. Origin: Latitude ______ Longitude __________
3. Estimated Size ______________ Acres at the time of this agreement.
4. Parties to this Agreement:
   Agency ___________ Fire # ___________ Accounting Code ___________
   Agency ___________ Fire # ___________ Accounting Code ___________
   Agency ___________ Fire # ___________ Accounting Code ___________
5. This agreement becomes effective on: ________________________ at ___________ and remains in effect until amended or terminated.
6. Overall direction of this incident will be by ( ) Unified Command, or by ( ) Single Command structure.
7. Identify below personnel filling the following positions:
   Position Name(s)
   Incident Commander
8. Suppression action will be subject to the following special conditions and land management considerations:
   ___________________________________________________________________
   ___________________________________________________________________
   ___________________________________________________________________
9. Geographic responsibility (if appropriate) by Agency is defined as follows:
   Agency ________________ Geographic Responsibility ____________
   Agency ________________ Geographic Responsibility ____________
   Agency ________________ Geographic Responsibility ____________
   Agency ________________ Geographic Responsibility ____________
   The Agency responsible for structural protection will be: _________________
10. Special operational conditions agreed to (include as appropriate Air operations, base camp, food service, fire investigation, security, etc.) List cost share information in Item #11:
   ___________________________________________________________________
11. Fire Suppression COSTS will be divided between Agencies as described:
