164 Name: **Tenderfoot** Cause: **Human** Admin: **DOT**

Narrative: A fire was reported by passing DOF employee. Rough coordinates placed the incident within the DAF protection area. Due to the distance from the station, helicopter N16973 with helitak was launched. A type 3 engine was dispatched from the station, and a nearby type 7 engine on project work was diverted to the incident. Aggressive attack by ground forces easily extinguished the fire. N16973 and helitak were released back to DAF. More accurate GPS mapping placed the incident within the FAF response area. The fire was declared out. Discussions with FAF will allow DAF to retain the fire number and complete the reporting.
