271 Name: **Hastings** Cause: Unknown Admin: **L&W**

Narrative: Today`s observed fire behavior was interior intermittent short crown fire runs, smoldering and creeping with individual/group tree torching.

Today was the last day of a warming trend and fire activity acted accordingly by increasing. Crews have worked to mop up from 200-500` in from the handline on the Western flank from H-20 to Washington Creek. A new division (D) was established along Washington Creek for the purpose of dealing with fire encroachment on the creek but it was not staffed today. A burnout commenced yesterday in Div. R on a large unburned island and efforts continued today. Fire suppression repair work is beginning to take place on the East flank dozer line down to Washington Creek.

Crews on the west flank will continue with efforts to mop-up 200-300` in down to Washington Creek. Mop-up will continue on Div R from 200-500` into the fire. In Div S, crews will be finishing up and released from the incident. In Div. Q, crews and excavators will continue rehab on the cat line down to Washington Creek. The burnout operation will be continued in Div. R if objectives haven`t been met today.

Transition from the Alaska Type 2 Team to a local Type 3 Team is tentatively planned for Wednesday, June 22.

Narrative: The fire is 39% contained. Costs continue to be adjusted with no change based on current estimates. Personnel focused on demob, cleaning camp areas, retrieving equipment, and keeping a vigilant watch on the containment lines along the west and south flanks. Overhead and crews continue to leave with two crews demobbing today. Materials are being backhauled as transitioning proceeds to more monitoring and less suppressing efforts. Helicopter crew members patrolled and located supplies and equipment on Divisions A/B, H, GP, J. The Delta crew worked the hotspot on Division G and patrolled the line from helispot 25 to helispot 27. Crews on Division Z continued to grid and mop-up a 100% 300` from the perimeter from helispot 12 to helispot 90. Overall there was minimal fire activity observed today. For the next operational period two more crews and the light helicopter will demob. The objectives along the southern perimeter have been met.
