Narrative: Cost estimates are still in adjustment. Area wide precipitation allowed for accelerated demobilization. Efforts were made to shuttle all crews out of camps and helispots. Overhead were planned for a major downsize in the next operational period due to more time needed to retrieve and backhaul equipment and supplies. All personnel were off the line, demobed, or at staging and the ICP. The type 3 helicopter was demobed. With the rain came very minimal fire activity. Monitoring will be ongoing especially on the flanks where management objectives were met. Additional overhead and another helicopter will be demobed during the next operational period.
