The fire was reported by Palmer 911 as a house fire that was spreading to the wildlands. Caswell, Willow, Talkeetna, and Houston FD, along with ASM A-4, and two forestry engines responded. When ASM A-4 arrived over the fire he found it to be 0.2 acres smoldering in hardwoods with multiple FD apparatus surrounding it with a hose lay. ASM A-4 was no longer needed at the scene and returned to base; one forestry engine was code greened while the other continued. When the forestry personnel arrived on scene, the fire was still smoldering in a few spots and had some residual heat; forestry personnel helped take action on the fire. The fire was contained and controlled and left in monitor status. The cause of the fire is unknown at this time.

The fire was reported by a private caller stating there was a tree root system that was on fire producing some smoke and small flames. Helitack 73LF responded along with one forestry engine. Upon arrival of 73LF, the fire was found to be smoldering in the tree roots at 0.1 acres; it was determined that the engine was no longer needed and they were code greened. The fire was contained and controlled at that time. The personnel of helitack 73LF took action on the fire. It was called administratively out and turned back over to the landowners. The cause of this fire was a campfire which was placed under the roots of the tree by children.

The fire was reported by Palmer 911 as a report of a plume of smoke. One forestry engine, helitack 3LF, Palmer and Sutton FD responded. When 73LF got over the fire they reported it to be small brush fire with plenty of clearance around it. Upon arrival of the forestry engine it was determined helitack 3LF was no longer needed and they returned to base. The engine determined the homeowner was burning with a general size burn permit with water on scene and good fire break. The fire was declared a false alarm.

KIDC was notified by Seward 911 that Moose Pass VFD was requesting a DOF helicopter. KIDC notified Chugach Dispatch and USFS resources were dispatched to a fire reported on the east side of Lower Trail Lake. DOF helicopter 212TH made multiple drops helping to keep the fire from leaving a peninsula and heading upslope. Fire is contained and mop up will continue on Sunday, 6/23.

The fire was flown by detection aircraft N222ME. The fire had doubled in size, 65% active, and backing down towards the river. The predominant rate of spread was to the Northwest. Fire behavior was smoldering in tundra with some isolated torching. The 4 person crew continues to make steady progress on structure protection. Acreage was increased due to more accurate mapping.

The fire was running, crowning and spotting today with 4 to 20' flame lengths but S-SE winds gusting to 35 mph assisted fire fighters in their efforts. The Shageluk Crew caught a 0.1 acre sloop on the NE control line while working 300' in. The Midnight Suns made good progress on the SE contingency line. Pumps and hose were deployed on the Stoney River Allotments. The Gannett Glacier Crew was reassigned to Fire 140.

This fire is located approximately 3 miles west of Prospect and Pump Station 5. The fire was 50% active, backing creeping and single tree torching in black spruce. It was spreading to the South and Southwest. The updated size is due to more accurate mapping by Helicopter N16920. After a reconnaissance flight personnel were placed for structure protection on native allotment land. The fire remains in monitor status.
