	Name: Mississippi		Cause: Human	

Transfer of command to a Type 3 IC at the home unit took place at 0600. Protected fuels under softwood canopy and deep duff layers continue to smolder and creep on the northern portion of the fire. Effects of long term drought remain despite recent precipitation and cooler temperatures. Drought Codes remain in the Very High range. Crews and remaining resources continue repair efforts and delivery of seed and fertilizer during the next operational period.
