9VS completed a recon flight over the Oklahoma Range. The prescribed fire was observed actively burning in grass and tundra in the Oklahoma and Arizona impact areas to the west and backing in the spruce with some single tree torching. H-6LE and H-1KA provided support with bucket work along 100 Mile Creek where 3 spots had been observed on the east side of the creek. Winds were light and variable, out of the west moving smoke into the Delta area. The fire will continue to be monitored.
