 Legal: 013N 017E 33 F Out Date:
 #230 Owner: Tribal Unit: AKNCA-Danzhit Hanlaih Corporation
 Name: **Six Mile** Cause: Human

The fire was reported by a resident at Circle City as a smoke 2 miles south of the airport. J-07 responded and the fire was 30 acres upon their arrival. A-4, T-262 and T-264 also responded with the scoopers dropping multiple loads of water on the fire. The fire is currently 44 acres in tundra and black spruce. The IC reports that the smokejumpers will work into the night to suppress the fire and, as the scoopers made good progress, will evaluate the need for further resources in the morning.

Chena Goldstream VFD, Ester VFD, ASM A-4, DOF engines, White Mountain handcrew and T-52 worked to control a fire sparked by powerlines off of Cripple Creek Rd. The wind driven fire was spreading in black spruce and mixed hardwoods until a load of retardant knocked it down. VFD and DOF ground resources worked to suppress the fire while Golden Valley Electric Association worked to remove trees from the line. The fire was contained and controlled and remains in monitor status.

 Name: **Blackstone** Cause: Human

North Star VFD, DOF Engines and H-633 responded to fire started by a tree on a powerline off of Blackstone Road. The fire was actively burning in continuous mixed fuels and fanned by high winds. Due to rate of spread and several structures in the area a request was made for retardant but then cancelled in favor of helicopter bucket drops. With the addition of White Mountain handcrew, DOF and VFD resources successfully suppressed the fire. The fire was controlled and left in monitor status.

 Name: **Funny River** Cause: Human

Significant precipitation decreased available fuels over the entire fire area. Fine fuels are soaked deep into the fuel bed. Expected weather over the next three days remains the same, with slowly drying fuels becoming available towards the end of the week. The fire experienced significantly high winds throughout the day. Numerous snags and green trees reported falling due to the high winds. Crews are utilizing Palm IRs and data from the Alaska Center for Unmanned Aircraft Systems to identify areas of heat. Excess crews and equipment are being released as incident management objectives are being met. High winds and moderate rainfall decreased fire fighter productivity due to increased hazards of falling snags and green trees.

Chinook winds and red flag conditions in the area prevented fire personnel and aviation response to the OP sites. These weather conditions led to erratic fire behavior, causing the fire to cross the OP road. B-7, T-55 and T-52 responded and dropped multiple loads of retardant. Fire personnel will continue their primary objectives, protecting the OP sites for the next operational period.
