Red Flag conditions were observed on the fire today. Low Rh and high winds increased fire behavior. Interior pockets of fuel torched and flare-ups occurred where wind blew trees down into smoldering duff. Fire burned actively in spruce and mixed stands, especially at the southeast end of the perimeter. Active ground fire occurred in unburned pockets in Div E and G. Despite the increase in activity, containment lines held and full containment on State lands was achieved during this operational period. Demobilization of resources continues. There were no airspace coordination issues with US Air Force Red Flag exercise activities today.
