AST reported an out of control debris burn. CES and a DOF engine responded. On arrival personnel found a large debris pile burning. Landowner had water on site and was in attendance of the permitted burn. DOF personnel discussed safe burning practices with the owner and departed the scene. Approximately an hour and a half later, AST was again contacted about the same burn escaping into the grass. DOF returned to the scene and found the fire creeping into the grass. Landowner was told to extinguish the pile and received a written warning.

Firefighters were able to gain access into this fire today. Firefighter safety was the main concern with the abundance of snags in the area. The IC estimated 30 snags in the working area, once they were mitigated fire personnel was able to commence line construction. Helicopter N516LE was able to drop a few sling loads, but do to the canopy is unable to be utilized for bucket work on the fire. The fire was observed to be smoldering and creeping. The fire is undetermined at this time as to the cause. The IC of this fire has determined this fire to be approximately a quarter of an acre in size.

Monitor

Count: 12

Acres: 222,080.4

Acreage Change: 150.2

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
