An agency recon aircraft flew the fire and confirmed the fire's location to be on an island with a fire size of 250" x 50". The fire was 40% active, smoldering and burning in dead and down fuels in a hardwood/conifer stand on the shore. 2 areas had 2 ft flame lengths with a low rate of spread to the west and south. The weather was overcast with 3 mph winds from the east. Due to the fire's location there does not appear to be any risks to the structures or other values in the area at this time. The fire has been placed into monitor status.
