The fire was successfully merged with fire 228 overnight. All personnel and resources associated with fire 228 have been transferred to this fire. Four crews were successfully mobilized to the fire today to help with suppression efforts. Fire personnel continued to work the fire directly, establishing a good anchor, and were able to secure the northern flank. The fire was still active, with the head showing extreme fire behavior. Scooper 260, T-851, T-849, T-853, B-8, 35E, and 4NC all worked the fire throughout the day, with the help from T-52 and T-10 providing 4 loads of retardant. J-78 successfully dropped one load of paracargo today, with plans to help support the fire tomorrow. Plans for tomorrow consist of directly attacking the fire, and reassessing to see if more resources are needed. Updated acreage due to more accurate mapping.

Fire personnel continued to work the fire directly, still estimating it at 15% contained. The fire was still mostly active on the northeast and southwest corners, but good progress was being made due to bucket work from H-70NW and H-309MH. Tentative plans for tomorrow consist of bucket work combined with personnel laying hose and suppressing the fire directly. Acreage increase do to more accurate mapping.
