Kalskag T2 Crew and other ground personnel continued to prepare structures for protection around the town of Kalskag, while Payson IHC focused on establishing and improving shaded fuel breaks on different areas of the fire. Gannett Glacier continued to construct line from their anchor point along the Western flank, focusing mainly on preventing the fire from slopping over across the creek to the west. All personnel continue working towards their goals while also aggressively attacking any spot of the fire that might pose a threat to nearby villages.

Abajo and HC3266 Wildfire Modules on scene.

Fire behavior was minimal with creeping and smoldering reported. 5-10% of the perimeter was active. The fire will continue to back eastward towards structures and the Elliott Highway. The fire was 1/5 miles west of the highway at last observation. During the next operational shift resources plan to implement the fire plan if favorable conditions develop or if fire poses an imminent threat to structures. They will expand the structure protection area. Also they will integrate new resources and in-brief and support incoming Type 2 IMT.

Name: **Tetlin Hills** Cause: Lightning

Firefighters continue to implement direct line construction on south and west flanks. Engaged bucket operations on north flank to hold spots across the line in check until the Type 1 hand crew ordered is available for insertion. Steepness of terrain, fuel orientation, and large rock out cropping are limiting factors on using resources at hand.

Name: **Long Lake** Cause: Lightning

Fire is burning adjacent to the town of Northway. Resources have been focused on the north end of the fire nearest to threatened residences. As temperatures lower and RH levels rise over the next several operational periods, burn intensity on the southern third of the fire will decrease. Indirect and direct line to be cut in wetter areas while using natural fire breaks such as creeks and ponds. Point protection to be placed to protect threatened structures.

Fire behavior was minimal with backing, smoldering, and creeping reported. Resources will continue to work to hold and improve lines around the village of Hughes and the cemetery. Mop-up 200' in and along firelines. Structure protection will also continue. The fire will also be reconned to get a look at the fire activity on the east side.

Fire is being managed and monitored as part of the "Hughes Fires". The Blacktooth, Southern Rockies, and Flaming Gorge Wildfire Modules are all on scene.

Name: **Spicer Creek** Cause: Lightning

The west end of the Spicer Fire had active crown fire runs in the afternoon. Moderate to extreme fire behavior was seen on the southwest flank of Spicer Creek. The fire is pushing up against the Tozitna river. Fire continues to back and flank south towards Tanana Village. The active southern edge of the fire north of Tanana measures 49 miles in length. Hay Slough, Harper Bend, Blind River, and Bering showed moderate growth.

In the Tanana area the fire burned down to the northernmost cabin along the Site Road. Crews wet the structure and burned out around it. It was not damaged. One small spot was picked up south of the Bear Creek and secured with bucket work. Smoke cleared enough by early afternoon to get a critical GPS track on the south perimeter of the Spicer Creek. One allotment was burned over but no structures were involved. The fire has approached within 1/4 mile of Management Action Point #1. Air operations were active today with missions including recons, bucket work, and communications support for repeater sites. For the next operational shift the plan is to continue to improve the indirect dozer line being placed north of Mission ridge to increase chance of stopping fire spread towards the Mission Hill residences. Crews will continue prepping and testing the structure protection water handling systems in preparations for when the Spicer Creek fire moves close to the town of Tanana. Getting GPS tracks is a priority.

On the River Branch some support structures were secured on one allotment. Two allotments were burned over by the Blind River fire. The fuel reductions by crews working the Blind River fire prevented two structures from burning.

Note: Staats` IMT managing 9 fires: The Blind River, Spicer, Tonzitna, Harper Bend, Hay Slough, Bering Creek, Moose Point, Jackson, and Kokrine fires. These are referred to as the Tanana Area Fires.

Fire is burning in a remote area and all known points of protection in the vicinity have been prepared and or plumbed. Management points have been identified on the north and south ends of the fire to trigger management response to protect adjacent communities in the event of fire spread. There are currently no anticipated threats to life and safety.
