B-4 spoke with a commercial pilot whom informed him that the locals from Savoonga responded to a fire at 4am and put it out. They located the fire, gave updated coordinates, and are working on a perimeter. Planning on landing at PASA to talk with the locals, east half of the island is covered in dense fog to the ground so unable to get in and locate 2nd smoke report. Later a local from Savoonga called, he believed it to be human caused and assumes that an ATV's muffler started it, ignition point on the ATV trail. He described a wind driven fire. Upon arrival he felt they would need 100 additional people to extinguish the fire but that mother nature assisted with the morning dew and light winds.
