The fire was transferred from the IC Type 3 to the IC Type 4 at 0800. White Mountain T2IA Crew continued gridding and advancing towards mopping up 300 feet in. Upper Tanana #2 is working in an area previously engaged by Pioneer Peak IHC. The crew is working deeper into the interior to take care of the deep dirty burn area. For tomorrow the crews will trade places, due to White Mountain's experience and the need for more intense saw work. Upper Tanana #2 will be gridding and working at advancing towards mopping up 300 feet in. Due to the higher sawyer qualifications possessed by the two safety officers, they'll be working along the Tetlin River corridor mitigating hazard trees. The Type 3 transition meeting took place at 1100 in the Tok Area operations room.
