

Wildland Fire Updates

Jun 14, 2013
 Last Updated: 1:53 p.m.

Contacts
 Report Fires: 911
 AFS/DOF Public Affairs: (907) 356-5511

Future updates will be provided when significant changes in activity occur.

Red Flag Warnings

Red Flag Warnings have been issued for the state due to low RHs (Relative Humidity) over the weekend. A Red Flag Warning means that conditions are occurring, or will occur, which could lead to the development of large and dangerous wildfires. More information about the warnings are available at:

<http://firewx.arh.noaa.gov/warnings.php>.

Fire Activity

Warm dry temperatures are forecasted for much of the state through the weekend. While wildland fire managers are paying close attention to lightning forecasts, the most probable source of dangerous fire potential continues to be human activities. South Central, the Copper River Basin, and the Kenai Peninsula are very dry. Please use caution with anything that could start a fire and adhere to Alaska Division of Forestry burn permit guidelines and suspensions for debris burning. More information on debris burning is available at

<http://forestry.alaska.gov/burn>. Fire information officer staffing has changed as fires have demobilized; if you need general statewide fire information, please call 907-356-5511.

Fairbanks and nearby areas

Decomposing wood chips and organic debris that has accumulated over several years is burning within the Yukon Training Area. Smoke may be visible from Eielson AFB, Two Rivers, North Pole, Salcha area and Alaska Hwy 2. The smoke generated from this process may last throughout the summer. Other fire activity in Fairbanks and nearby areas remains minimal.

Fire Information

As of today, according to the AICC a total of 200 fires have burned 46,097 acres statewide this year. Refer to AICC Situation Report for additional information: <http://fire.ak.blm.gov/content/aicc/sitreport/current.pdf>. Fire-related news releases are posted at <http://fire.ak.blm.gov/newsroom.php>.
