Morning Highlights will next be updated when there are significant changes in the fire activity or resource movement.

Dry Creek Fire Update

The Bureau of Land Management Alaska Fire Service reported the Dry Creek Fire was creeping, backing and torching, and is 40 percent active. A surveillance flight was conducted yesterday at 1:30 p.m. and the size of the perimeter increased; the fire is now 42,000 acres. Smoke was very visible throughout the area and was rising to 5,000 feet.

Smoke remains as a concern for local residents. Rain has been forecasted for the area but has yet to arrive. The BLM-Alaska Fire Service continues daily surveillance flights.

The Dry Creek Fire was caused by lightning on June 23 and is located 18 miles south of North Pole, 13 miles south of Eielson AFB and 25 miles south of Fairbanks. The fire is on land co-managed by BLM and the U.S. Army Alaska.

Photo at right was taken near North Pole by BLM-Alaska Fire Service personnel.

For more information about the Dry Creek Fire, contact the Fire Information Office at the Alaska Fire Service at 907-356-5511.

Information Gathering Alaska

The Alaska Interagency Coordination Center (AICC) is the

Geographic Area Coordination Center (GACC) for Alaska. It serves as the focal point for initial attack resource coordination, logistics support, and predictive services for all State and Federal agencies involved in wildland fire management and suppression in Alaska. The center operates on an interagency basis - cooperators include the Bureau of Land Management, State of Alaska Department of Natural Resources, USDA Forest Service, National Park Service, Bureau of Indian Affairs, and the Fish and Wildlife Service.

National

The U.S. is grouped into 11 Geographic Area Coordination Centers (GACC): Alaska, Eastern Area, Eastern Great Basin, Northwest, Northern Rockies, Northern California, Rocky Mountain, Southern Area, Southern California, Southwest and Western Great Basin. The map pictured at left shows the states that these geographic areas encompass.

Fire information by GACC: <http://www.nifc.gov/nicc/information/information.htm>.

The National Interagency Coordination Center (NICC) is located in Boise, Idaho. It is the focal point for coordinating the mobilization of resources for wildland fire and other incidents throughout the U.S. Like the GACCs, NICC also provides Intelligence and Predictive Services related-products.

In addition to the wildland fire information provided on each GACC website, useful sources may include:
