

# Alaska Red Flag Warning & Fire Weather Watch Criteria

(if combined with burnable fuels)

## **General non-convective Red Flag Warning criteria:**

Temp $\geq 75^{\circ}\text{F}$	RH $\leq 25\%$	Wind $\geq 15$ mph (sustained)
--------------------------------	----------------	--------------------------------

## **Exceptions to the non-convective Red Flag Warning criteria:**

223- Deltana/Tanana Flats 226- Eastern AK Range	No temp criteria	RH $\leq 25\%$	Wind $\geq 30$ mph (sustained)
<b><u>Pre-green-up*</u></b> in zones: 101- Anchorage 111- Matanuska Valley 121- Western Kenai 125- Western PWS	Temp $\geq 65^{\circ}\text{F}$	RH $\leq 25\%$	Wind $\geq 15$ mph (sustained)

\*Green-up will be discussed with local fire managers each spring to ensure an appropriate change date for South Central zones.

## **Lightning Criteria**

Forecast LAL $\geq 4$	Very dry fuels using adjective ratings with guidance from Predictive Services.
