To all BLM Alaska Fire Service EFF/AD Firefighters and Responders,

Effective January 1st, 2018, all BLM Alaska Fire Service EFF/AD employees who will participate in the Work Capacity Test (WCT or Pack Test) at Light, Moderate or Arduous levels must use the attached Health Screen Questionnaire (HSQ). This new HSQ will be used to determine if a physical examination is required prior to participating in the WCT at that level.

This new HSQ must be completed and email to address below, or fax to number below or mailed back to BLM Alaska Fire Service to address below **no later than January 29, 2018**. Be sure to include your complete and legal **FIRST NAME, MIDDLE NAME, LAST NAME and any suffix (Jr., Sr., II, III, IV)**.

An agency official will review your HSQ and determine your clearance to participate in the WCT. If you are cleared, no further action is necessary and you will receive a "Certificate of Clearance for Work Capacity Test" in the mail prior to the scheduled WCT/Pack Test this spring. If you are NOT cleared you will be required to attend a complete physical examination by a qualified physician. If a physical examination is necessary, more information and details on that will be sent you at a later date.

This Health Screen Questionnaire must be completed and returned no later than January 29, 2018. Failure to do so will result in you not being allowed to participate in the WCT (Pack Test) this spring.
