# CAMPFIRE SAFETY

*You are responsible for your campfire  
until it is out cold.*

## BEFORE YOU START:

- Look for existing fire rings or grates and use those when available.
- Choose a level area with no overhanging branches.
- Clear away all vegetation, like spruce needles, if not in a ring.
- Circle the fire ring with rocks.
- Have a shovel and water very close by.
- Keep your fire small and manageable.
- Pile firewood upwind; 10 feet from the fire ring.
- NEVER leave it unattended.

## KNOW THE C.O.D.E.

**C**hoose your campfire site carefully.

**O**wnership - You are responsible for every fire you start.

**D**ecide - Can this fire be safely controlled in the current weather?

**E**xtinguish - Make sure your campfire is...

# OUT COLD!

# CAMPFIRE SAFETY

## WHEN YOU'RE DONE:

- Slowly add water to put out all the flames.
- Stir and scrape to cool and separate coals.
- Add water until the steaming stops.
- Feel for heat with the back of your hand
- If no heat is rising, feel closer to the black.
- If heat is rising, continue to add water until the black/or coals are cool.
- When cool to the touch, disperse the rocks.

## Keep Alaska Green. Always Burn Responsibly.
