Resource Allocation/Long Term Planning: Operations  
IMTs / Crews / SMJ / Aviation

IMT's:

Upper Yukon zone ordering replacement T3 IMT for Hess Creek  
Tomorrow will be go/no go on the prepo team in ANC

Crews:

Related to NICC jet: sounds like the delay now occurring is causing problems with crews to be delayed to demob, we will consider keeping the crews on the fire an additional day until their jet is ready to leave. Will meet after to have AICC and NICC discuss.

Cost to fly 5 crews commercially?

Don't see a need for last crew jet load of crews

SMJ:

Getting some back, 21 back on days off and will be available to go out in the next day or two

Aviation:

Add'l UAS team ready to go on Tuesday morning

Round Robin by Agency:

BLM / DOF / BIA / FWS / Chugachmiut / USFS / NPS

BLM:

A writer from Economist magazine coming up for a day or two, probably get him to 349 Chandalar.  
Wants to talk to firefighters.

DOF:

Lifting of camp fire closure info was sent out, went into effect at 1200 today.  
0900 on Tuesday, Rob Allen's T1 IMT close out off Shovel Creek.

BIA: nothing to add

FWS: nothing to add

Chugachmiut: nothing to add

USFS: nothing to add

NPS: nothing to add

NMAC:

Don't think NMAC is opposed to crew extensions, just ensure it works logistically. Could cause a different dynamic on how many crews will be replaced.
