AWFCG - Fire Management Option Boundary or Management Level Change Approval Sheet

Land Manager/Owner(s)
The following land manager(s)/owner(s) have approved fire management option boundary or management level change(s) for the lands that they manage/own.

For: Richard Thompson NRM III SOA DMLW -Lands
Agency Administrator or Land Manager/Owner
Notification of interested parties completed: __X__ YES ___ NO

Rationale for Change: Protection boundary reviewed per AIWFMP after a non-standard suppression response this past fire season. Protection boundaries have not been reviewed or changed since the original Kuskokwim Iliamna Fire Plan of 1983. Protection boundaries in the planning area often follow ownership boundaries, a practice which has proven impractical in terms of fire suppression. The attached files show the approved increase in the full protection area to bring the boundary out to natural barriers whenever possible. All changes are on conveyed SOA land and approved by Richard Thompson NRM III SOA DMLW.

The fire management option changes for: State of Alaska Division of Mining Lands and Water Hoholitna Full Protection Change are contained in shapefile format or are delineated on the 1:63,360 maps named:
