Management Option Change Initiator

Change Description and Rationale - Describe changes geographically and jurisdictionally. Explain the rationale for the change (use additional sheets if necessary). Specify the conversion date for any changes to Modified:

Fire Management Options are changed within the boundary of Kenai Fjords National Park along three areas of the coast. Maps displaying the changes are attached. The National Park Service is the Jurisdictional Agency for all lands where a change in fire management option occurs.

All changes involve moving lands from Full protection to Limited protection given the absence of values at risk and wilderness status (Eligible Wilderness) of those lands. In nearly all cases, the new demarcation between Full and Limited is a line of land ownership where lands held by the US government in fee status are in Limited fire protection and lands held by the US government in less than fee status are in Full Protection.

Changes initiated by:
Agency: National Park Service Administrative Unit: Alaska Regional Office (AK-AOP)
Name: Chuck Russell Title: Regional Fire Management Officer
Email: charles_russell@nps.gov Phone Number: (907) 644-3409
