

Event Kind			Event Category		
Code	Name	Description	Code	Name	Description
FI	Fire	<i>An event, managed by the wildland fire community, where an ignition resulting in sustained combustion occurred.</i>			
			DF	Debris / Product Fire	An event dealing with a fire spreading from any fire originally ignited to clear land or burn rubbish, garbage, crop stubble, or meadows (excluding incendiary fires).
			GF	Foreign Incident	An event dealing with a wildland fire originating from a country outside of the U.S. which has burned onto U.S. soil.
			NS	Non-Statistical/Other	An event dealing with any fire which could pose a threat to ignite adjacent wildland fuels but ultimately did not result in a wildfire and thus cannot be accurately classified as any of the other Fire (FI) Categories.
			RX	Prescribed Fire	An event, where a wildland fire originating from a planned ignition in accordance with applicable laws, policies, and regulations to meet specific objectives.
			SF	Structure Fire	An event dealing with a fire originating in and burning any part or an entire building, shelter, or other structure.
			VF	Vehicle Fire	An event dealing with a fire originating in or on a vehicle or mobile equipment.

			WF	Wildfire	An event dealing with a wildland fire originating from an unplanned ignition, such as lightning, volcanos, unauthorized and accidental human caused fires, and prescribed fires that are declared wildfires.
FM	Fire Management Action	<i>An event, managed by the wildland fire community, which addresses certain activities and responses undertaken by the wildland fire management community in conjunction with existing or potential fire event(s).</i>			
			BR	Emergency Stabilization	An event dealing with emergency response to stabilize land and structures damaged by wildfire with the objective to protect life and property from damage due to post-fire events and fire. Efforts occurring 1-12 months from ignition date.
			FA	False Alarm	An event where a wildfire was initially suspected, but ultimately an ignition could not be located; or the basis for the initial report was subsequently attributed to a non-fire source, such as water vapor or vented industrial emissions. The key point here is No FIRE, an incident cannot be a false alarm if an ignition is located.
			FR	Fire Rehabilitation	An event dealing with objectives to repair damage or disturbance caused by wildfire. Efforts occurring 1-5 years from ignition date.
			CX	Incident Complex	An event where two or more unique or distinct wildfires in the same general area that, by management action, are managed under a single incident commander or unified command to improve efficiency and simplify incident management processes.

			SU	Incident/Event Support	An event dealing with effective and timely support by the wildland fire community of an Event Host's dispatch unit, in order to relieve the dispatch unit of increased business volume due to anticipated or existing wildland fire or event activity. This category includes activities such as expansion of the existing Incident Support Organizations (ISO), such as initiating Expanded Dispatch operations, expanding Technical Support (such as establishment of contract-resource inspection stations), Multiagency Coordinating Group (MAC Group) support, and expanding administrative support (such as support of bill-payment centers).
			IM	International Mobilization	An event dealing with effective and timely support to the wildland fire community by mobilizing resources internationally. This category Includes importing and exporting resources.
			OR	Out of Area Response	An event where resources are mobilized to a Wildfire (WF) Event within their corresponding dispatch Center's response area (boundary). When resources arrive on scene, it is determined the ignition is not within their area of response, but in fact plots within an adjacent dispatch center's response area (boundary)
			PP	Preparedness/Preposition	An event dealing with effective and efficient response by the wildland fire community to planned, anticipated or event activity. This category includes activities such as move-up and cover, fire menace standby, and severity activities.

HZ	Hazardous Conditions	<i>An event, usually managed by organizations external to the fire community, for which the primary focus is for dealing with a hazardous situation that poses an unreasonable risk to health, safety, and property.</i>			
			BI	Biological or Toxic Conditions	An event dealing with the hazardous situations that arise as with the presence of biological hazards and/or deadly chemicals. This category includes chemical spills/leaks, deliberate poisoning, chemical accident, animal/plant disease outbreak, biohazard exposure, etc.
			FG	Flammable Gas, Oil, and other liquids conditions.	An event dealing with the various situations that arise as a result of the presence of flammable gas and liquids such as gasoline, oil, etc.
			EX	Explosives or Electrical Danger	An event dealing with the various situations that arise as a result of an explosion, presence of an explosive device, or electrical hazard - no fire.
			RD	Radioactive/Nuclear Conditions	An event dealing with the various situations that arise as a result of the presence of radioactive materials.
AC	Accident	<i>An event, usually managed by organizations external to the fire community, for which the primary focus is for dealing with an accident and assistance to potential victims. This category includes accidents such as:</i>			

		<i>automobile, aircraft, train, watercraft, and industrial.</i>			
			AI	Air Accident	An event dealing with an accident or mishap involving aircraft.
			MV	Motor Vehicle Accident	An event dealing with an accident or mishap involving on- or off-highway vehicles.
			RA	Rail Accident	An event dealing with an accident or mishap involving railway vehicles.
			MR	Marine Accident	An event dealing with an accident or mishap involving watercraft
			ST	Structure Accident	An event dealing with a major accident or mishap such as collapse of a building or other man-made structure.
AP	Agency Program Support	<i>An event, managed by one of the fire agency's other (non-fire) program areas, for accomplishing activities deemed necessary by agency management.</i>			
			CI	Critical Incident Stress Management/Peer Support	An event dealing with a critical incident event. Critical Incident Stress Management (CISM)/Peer Support is the selection and implementation of the most appropriate crisis intervention tactics to best respond to the needs of the situation. CISM has multiple components other than responding after a critical incident occurs. These components can be used before, during, and after a crisis. They include a wide range of various activities, including Pre-Incident Education (PIE), which provides for resiliency, planning and preparedness, acute crisis management, and post-incident follow up.

			RP	Resource Program (internal)	An event dealing with agency-specific non-fire program(s), such as forestry, mining, wildlife, fisheries, recreation, etc. Includes mechanical fuel treatment, timber operations, aerial bug-spraying projects, Rainbow gatherings, etc.
			LE	Law Enforcement (internal)	An event dealing with the agency's law enforcement program. Includes non-fire infrared flights, surveillance, etc.
			MG	Management Event (internal)	An event dealing with agency-specific administrative programs, such as public relations.
PA	Public Assistance	<i>A community or public service event, managed by an organization external to the fire community, which requires resource support from the fire community. This category includes VIP visits, law enforcement activities, concerts, conventions, parades, road/bridge closures, etc.</i>			
			CM	Community Event	An event initiated by local private or government organizations that require non-emergency services for a general gathering such as a concert, convention, or parade.
			PS	Public Service Organization Event	An event managed by local public service organizations (police, fire, law enforcement, emergency medical services, or military).
			IN	Infrastructure Event	An event dealing with public infrastructure such as water, electric, transportation, or communication networks.

SR	Search/ Rescue/ Recovery	<i>An event, usually managed by organizations external to the fire community, for which the primary focus is the search, rescue and/or recovery of people or things. This category includes missing persons, entrapments, etc.</i>			
			UR	Urban Search/Rescue/ Recovery	An event dealing with a search, and/or rescue, and/or recovery in an urban setting.
			WL	Wildland Search/ Rescue/ Recovery	An event dealing with a search, and/or rescue, and/or recovery in a wildland setting.
			MN	Marine Search/ Rescue/ Recovery	An event dealing with a search, and/or rescue, and/or recovery in a marine setting.
			MA	Medical Assist	An event dealing with a rescue, and/or recovery, and/or service for a non-accident medical emergency (e.g., heart attack, illness, etc.).
ND	Natural Disasters & Severe Weather	<i>An event, usually managed by organizations external to the fire community, for which the primary focus is managing emergency situations created by severe weather or natural disaster.</i>			
			EQ	Earthquake	An event dealing with response to an earthquake.
			FL	Flooding	An event dealing with response to a major flood.
			HU	Hurricane/Typhoon	An event dealing with response to a hurricane or typhoon.

			LS	Landslide/Mass Earth Movement/Avalanche/Sinkhole	An event dealing with response to mass movement of the earth's surface, including landslide, mudslide, slumping, sinkhole etc.
			TS	Thunderstorm/Tornado/High Winds	An event dealing with response to a severe storm such as thunderstorms, tornado, or high winds.
			TU	Tsunami	An event dealing with response to a tsunami.
			VO	Volcano	An event dealing with response to volcanic activity.
			WW	Severe Winter Weather	An event dealing with response to severe winter weather such as blizzards, heavy snow, or ice storms.
TR	Training & Proficiency	<i>A scheduled activity that provides instruction to make attendees fit, qualified, or proficient in a particular area. This is a planned event.</i>			
			CT	Classroom Training	An event dealing with a scheduled activity in a classroom setting or other controlled environment that provides instruction so as to make attendees fit or qualified for incident support activities.
			JT	On-The-Job Training	An event dealing a person's experience and proficiency while performing assigned duties while performing a job.
			PC	Proficiency & Currency Event	An event dealing with maintenance of licenses, currencies, or proficiencies, including recurring proficiencies.
			SI	Simulation	An event dealing with simulation of various situations to provide experience or proficiency.
