Jennifer Hrobak
Program Analyst/State Fire Planner
BLM – Alaska Fire Service
907-356-5866
jhrobak@blm.gov

2024 Summary

- ▶ 439 total between March 29 and November 13
 - ▶ 379 Wildfires
 - ▶ 47 False Alarms
 - ▶ 8 Debris/Product Fire, 1 Structure Fire, 1 Vehicle Fire, and 3 NonStatistical
- ▶ Certified between May 28 – December 19

Policy Requirements

- ▶ Alaska Statewide Operating Plan of the Alaska Master Agreement
- ▶ Protecting Agency vs Jurisdictional Agency Responsibilities
- ▶ AICC's role

Policy Requirements

- ▶ Agency Specific Fire Report Policy (certifiers, timelines, other requirements, etc.)
 - ❑ NPS – RM-18, Ch. 11 (2023)
 - ❑ BLM – FA-IM-2024-015 (2024)
 - ❑ USFWS – Fire Management Handbook (2025)
 - ❑and others

Questions so far?

Alaska Business Rules for InFORM

General Rules - Highlights:

- 1) Do **NOT** edit or certify anything that is not “yours”. **Certifier = POO Jurisdictional Agency**
- 2) Update the **AK Certifiers Contact List** on SharePoint annually (spring) or more often if needed.

General Rules (Continued):

4) Wildfires, False Alarms, Structure, Vehicle, Debris, Non-Statistical + **New for 2025: Foreign Incidents** require certification.

5) Certifying the FODR = certifying the fire **PERIMETER**

Process Rules - Highlights:

Operational & Fire Reporting Phases

- 1) Do **NOT** edit InFORM. WildCAD-E only.

Fire Reporting Phase -

- 2) **ALL** affected Jurisdictional Agencies, BLM DM-620 reps & AICC Tactical Desk notified for certification – 15 Days Called out (see ASOP).

Process Rules (continued):

4) Final Fire Report Package **includes** uploading to AICC InFORM SharePoint (see ASOP):

- ▶ WildCAD-E Incident Card (Dispatch Log)
- ▶ Daily Narrative Report
- ▶ Incident Specific Cost Share Agreements

Download! Use to review before certification!

5) Multi-jurisdictional Fires:

- ▶ All agencies **CAREFULLY** review – **ACCURATE DATA**
- ▶ Send **ALL** edits/corrections to dispatch to update in **WildCAD-E**

▶ **Jurisdictional Agency at POO is Certifier**

Process Rules (continued):

6) Exceptions!!!!

*InFORM Required – Dispatchers MUST enter before Certification

*Other Fields – Available for Agency Use:

- ▶ POO Fire Intensity
- ▶ WIMS Weather Station Identifier
- ▶ Cause Investigated?
- ▶ Is Trespass?
- ▶ In Fuel Treatment?
- ▶ Report Narrative
- ▶ **Fuel Type of Concern**
- ▶ **Fuel Class of Concern**
- ▶ **Assign Beneficial Acres %**

These are not
exchanged
through IRWIN!!

Process Rules (continued):

- 7) AICC Tactical Desk –
Archiving certified reports &
final fire package
documentation

****Beyond this, up to individual agencies to follow their records policies.****

QUESTIONS?

Continued Challenges

Data Exchange Reminder

- ▶ It's a one-way street!
- ▶ Edits to a field within InFORM blocks additional updates to that field
- ▶ Certifying stops all updates though if you unCertify, updates will resume but ONLY for fields that were not edited in InFORM
- ▶ *Refrain from edits in InFORM during the operational phase.*

[AICC Predictive Services - Intelligence/Reports](#)

NWCG Data Standard - Event Kind & Category

FM(Fire Management) Event Categories:

- ▶ **False Alarm (FA):** An event where a wildfire was initially suspected, but ultimately an ignition could not be located; or the basis for the initial report was subsequently attributed to a non-fire source, such as water vapor or vented industrial emission.

NWCG Data Standard - Event Kind & Category

FI (Fire) Event Categories:

- ▶ **Structure Fire (SF):** An event dealing with a fire originating in and burning any part or an entire building, shelter, or other structure.
- ▶ **Vehicle Fire (VF):** An event dealing with a fire originating in or on a vehicle or mobile equipment.
- ▶ **Debris/Product Fire (DF):** An event dealing with a fire spreading from any fire originally ignited to clear land or burn rubbish, garbage, crop stubble, or meadows (excluding incendiary fires).
- ▶ **Non-Statistical/Other:** An event dealing with any fire which could pose a threat to ignite adjacent wildland fuels but ultimately did not result in a wildfire and thus cannot be accurately classified as any of the other Fire (FI) Categories.

NWCG Data Standard - Event Kind & Category

Key Points about non WF Categories:

- ▶ FA = No Smoke at all!
- ▶ DF/NS/SF/VF = No wildland involvement at all!
- ▶ Agencies may choose to leave some responses as Smoke Checks: HOWEVER, if there are resulting costs, a sequential fire # and creation of incident in IRWIN is required
- ▶ Require Certification within InFORM just like Wildfires

Corrections Post Certification

- ▶ Anyone can unCertify if they have Certification role; however, do not do in a vacuum.
- ▶ Local dispatch center needs to be involved due to other data sources.
- ▶ AICC needs to be told as well especially if POO changes.

InFORM INITIAL RESPONSE AGENCIES

Based off the Resource information in IRWIN, this box is used to denote when another agency responded to an incident. For each agency, the responding agency box is checked for “yes” if:

- Time frame: Up to 48 hours after Fire Discovery Start Date Time.
- Counting these resources: All “Line Producing Resources” as listed below.
 - Hand Crews
 - Wildland Fire Modules
 - Engine Crews
 - Helitack
 - Smokejumpers
 - Firefighting Equipment
 - Firefighting Engines/Tactical Water Tenders
 - Dozers/Tractor Plows

INITIAL RESPONSE AGENCIES

RESPONDING AGENCIES

- ☐ Bureau of Indian Affairs
- ☒ Bureau of Land Management
- ☐ Bureau of Reclamation
- ☐ Department of Defense
- ☐ Department of Energy
- ☒ National Park Service
- ☒ US Forest Service
- ☐ US Fish and Wildlife Service
- ☐ Other Federal
- ☐ Foreign Government
- ☐ Tribal Government (non-trust lands)

Initial Resources

Resources below were fulfilled within 48 hrs of incident discovery:

| Provider Agency | Provider Unit | Home Unit | Type | Category | Kind |
|-----------------|---------------|--|----------|-----------------|----------------------------------|
| USFS | IDFCF | PATHFINDER AVIATION LLC | Aircraft | Helicopter | Type 2 Standard |
| | CASYC | CASYC | Crews | Fire | Type 1 |

Edit Log

- ▶ Similar to IRWIN Observer
- ▶ See user that last edited each field
- ▶ Very helpful for troubleshooting problems

The screenshot displays the INSPECTOR v2.0.54 interface for an incident named 'Sasbo Bluff'. The top navigation bar is blue with the title 'INSPECTOR v2.0.54'. Below it, the incident name 'Sasbo Bluff' is shown. A row of buttons includes 'REPORT', 'EDIT', 'CLOSE', and 'ACTIONS'. The 'ACTIONS' dropdown menu is open, showing options: 'Invalidate', 'Merge Into', 'View Uniqueness Scores', 'Show Edit Log' (highlighted with a red box and a red arrow), 'Show related records', 'Share via email', and 'Re-center map'. To the right of the dropdown, there is a blue button 'CERTIFY INCIDENT' and a green button 'CERTIFY INCIDENT' with the text 'Ready To Be Certified' above it. Below the dropdown, a table lists incident details:

| INCIDENT | |
|-----------------------------|--|
| INCIDENT NAME * | Sasbo Bluff |
| INCIDENT TYPE * | Fire |
| INCIDENT CATEGORY * | Wildfire |
| UNIQUE FIRE IDENTIFIER * | 2025-AKMSS-501002 |
