 THE FIRE CONTINUED TO BURN WITH MODERATE ACTIVITY IN THE INTERIOR,
 BUT WITH ONLY LIMITED PERIMETER INCREASE. THE FIRE BACKED INTO
 EASTERLY WINDS ALONG THE ALCAN HIGHWAY AND THE S.E. CORNER NEAR THE
 GERTSLE RIVER. BUCKET DROPS LIMITED THE SPREAD OF THE FIRE ALONG
 THE BISON SIDEWALK, PROTECTING 1402 ROAD. CREWS CONTINUED TO MOP-UP
 THE SPOT FIRE THAT JUMPED 1402 RD, THREATENING THE LOG DECK TIMBER
 SALE. THE SPOT FIRE IS 60% CONTAINED. HOT SPOTS ARE STILL BEING
 FOUND NORTH OF THE ALCAN HWY. THIS IS STILL A WEATHER-DEPENDENT
 FIRE. GIVEN SOUTH WINDS, IT HAS THE POTENTIAL TO CROSS THE ALCAN
 HWY TO THE NORTH AND MAY STILL CROSS 1402 RD TO THE WEST. INITIAL
 ATTACK WAS PROVIDED TO DELTA FORESTRY FOR A FIRE IN THE TANANA LOOP
 AREA. ENGINES D51, D52 AND D11 RESPONDED TO FIRE 621 FROM FIRE
 312.

INCIDENT MANAGEMENT SITUATION REPORT
WEDNESDAY, AUGUST 31, 1994 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL V

Current Situation: Initial attack activity decreased in most areas. Fire activity on large fires in the Great Basin, Northwest and Rocky Mountain Areas continued. Favorable weather conditions on several fires in the Northern Rockies allowed suppression forces to make good progress.

Colonel William T. Maddox, USA, is the Task Force Commander of three Battalions and one Aviation Company assigned to the Corral Creek fire and the Idaho City Complex. Colonel Joseph Leigh, USA, is the Task Force Commander of three Battalions assigned to the 17 Mile fire, Little Wolf fire and the Kooconusa Complex.

Northern Rockies Area Large Fires:

An Area Command (Kitchens, Area Commander) has been established for the Kootenai National Forest. The Area Command is responsible for the following fires: Yaak-Red Dragon Complex, Cabinet Complex, Libby Complex, Trout Creek Complex, High One, Wolf II, and Kooconusa Complexes. Six CH-47 helicopters from the A/6-158th Aviation Unit have been reassigned to the Payette NF in Idaho.

LIBBY COMPLEX, Kootenai NF. A Type I Incident Management Team (Porter) is assigned. This complex includes the SCENERY, LEIGH CREEK, CHINA BASIN, MCKAY MTN and QUARTZ fires. Crews are making excellent progress on line construction, burnout, and mop-up. Firelines held during periods of gusty winds yesterday. Crews are beginning rehabilitation of suppression impacts on some of the cooler, interior firelines.

LITTLE WOLF, Flathead NF. A Type I Incident Management Team (Kohut) is assigned. Star Meadows remains on alert status. Cooler weather and higher humidities aided in containment and mop-up activities.

YAAK-RED DRAGON COMPLEX, Kootenai NF. A Type I Incident Management Team (Meuchel) and a Type II Incident Management Team (Bullis) are assigned. Demobilization of the 3-82nd Field Artillery Battalion, 1st Cavalry Division (Lt. Col. Dudley, Commander) is in progress. The complex now has 27 active fires, including the THUNDER HILL, 17 MILE, ZIMMERMAN, PULPIT, STUDEBAKER, FISH FRY, FOWLER, GUNSIGHT, BURNT SHEEP, and PINK MTN. Of this total, ten fires have been controlled, fifteen fires contained, and another ten have suppression action well in progress. One fire has not been staffed. Mop-up is slow in many areas due to fuel types.

KOOCANUSA COMPLEX, Kootenai NF. A Type I Incident Management Team (Lee), the 1st Battalion, 5th Marine Regiment, (Lt. Col. Bonwit, Commander) and the 3-11 Field Artillery Battalion, I Corps (Lt. Col. Patterson, Commander) are assigned. This complex consists of the CRIPPLE HORSE, MAXINE, 336, FOWLER, and BANFIELD fires. Firelines held despite gusty winds yesterday. One

exception was a slop-over in the Charlie Creek drainage on the Maxine fire. The 1st Battalion, 5th Marine Regiment are scheduled for demobilization on 9/2.

BEAR CAMP, Clearwater NF. A Type II Incident Management Team (Cowin) is assigned. Crews continue to mop-up the large, partially burned areas adjacent to the fire perimeter. The potential continues for unburned areas to flare up and breach control lines. Structure protection plans for government buildings and residences on Highway 12 remain in place.

ANN, Bitterroot NF. A Type II Incident Management Team (Spradlin) is assigned. Crews continued line construction on the southeast and northeast corners of the fire.

CABINET COMPLEX, Kootenai NF. A Type II Incident Management Team (Groshong) is assigned. Currently, five fires in the complex are staffed: SPRUCE, SURVEY, DRIFT, WILLARD, and WILL DO. One new fire (GRAUMBAUER) will be staffed today.

TROUT CREEK COMPLEX, Kootenai NF. A Type II Incident Management Team (Suenram) is assigned. The major fires in this complex are: PILLICK RIDGE, LOST GIRL, GOAT ROCKS and DEVIL'S DAD. Excellent progress was made on the Pillick fire. Current expectations are that line construction will be completed by end of shift, today. Other fires in the complex are being monitored on a daily basis.

POWELL COMPLEX, Clearwater NF. A Type II Incident Management Team (Hodge) is assigned. This complex includes the FREEZEOUT, FERN CREEK, SPONGE, BIG HIDDEN, HESLIP RIDGE and GOLD MEADOWS fires. Initial attack has been successful on ten of the new fires. The other new fires will be staffed today. Work will begin today on containment of the Heslip fire.

NORTH FORK COMPLEX, Glacier NP. Suppression action and management of natural fires are the priorities on this complex. Direct attack by one NPS crew continued on two spot fires east of Starvation Creek. The Adair II fire remains active on the south and east sides. All fires received a trace of rain.

Eastern Great Basin Area Large Fires:

An Area Command (Smith, Area Commander) has been established for the Boise National Forest. The Area Command is responsible for the Idaho City Complex, the Thunderbolt and Star Gulch fires.

CORRAL CREEK, Payette NF. A Type I Incident Management Team (Monahan) and the 14th Engineer Battalion, (Lt. Col. Perrenot, Commander) are assigned. No new information was received.

CHICKEN COMPLEX, Payette NF. A Type I Incident Management Team (O'Bannon) is assigned. No new information was received.

STAR GULCH, Boise NF. A Type I Incident Management Team (Richer) is assigned. Work continued on containing the fire west of Brown Creek. Difficulty in containment involves locating all the spot fires within the control lines. The fire gained no acreage yesterday.

BLACKWELL COMPLEX, Payette NF. A Type I Incident Management Team (Harbour) is assigned with a State representative (Williams) under unified command. Helicopter support is being provided by the 4th Battalion, 227 Aviation Regiment, 1st Cavalry Division, USA (Lt. Col. Myles, Commander) and the 4th Battalion, 1st Aviation Brigade (Lt. Col. Brodstrum, Commander). No new information was received.

IDAHO CITY COMPLEX, Boise NF. A Type I Incident Management Team (Eddy) is assigned. The 1st Engineer Battalion, 1st Infantry Division, USA (Lt. Col. Bostic, Commander) is assigned. The complex consists of the BANNOCK, BEAR RIVER, RABBIT CREEK and NORTH FORK fires. Acreage increase was due to burnout operations, all within the containment lines. The Sawtooth Wilderness remains closed. Structure protection is being implemented in Deer Park, Willow Creek and Swanholm Creek. Higher humidities helped moderate fire activity yesterday.

THUNDERBOLT, Boise NF. A Type I Incident Management Team (Denton) is assigned. The 4th Battalion, 227 Aviation Regiment, 1st Cavalry Division, USA (Lt. Col. Myles, Commander) is providing helicopter support. Decreased fire behavior allowed good progress in containing the slopover east of Johnson Creek. Firing of indirect line on the west flank is progressing well, with completion anticipated for today.

PIONEER COMPLEX, Challis NF. A Type II Incident Management Team (McAtee) is assigned. This complex consists of the PIONEER CREEK, NORTON RIDGE, NORTON LAKE and NORTON LAKE II fires. The Pioneer fire is in patrol mode. The fires in the vicinity of Norton Ridge are being supported by air. A spike camp is being established.

GUN RANGE, Utah State. Structures are being protected by dozer line.

Northwest Area Large Fires:

An Area Command (Kurth, Area Commander) has been established for the Wallowa-Whitman NF. The Area Command is responsible for all fires on the Forest.

LITTLE MALHEUR COMPLEX, Malheur NF. A Type II Incident Management Team (Andrade) is assigned. This complex consists of the JACKSON and POWDER fires. This complex is located 20 miles south of Unity, OR and is threatening ranches and cultural, historic sites. High winds and low humidities caused long range spotting. Twenty miles of line have been built with 24 miles remaining.

JORDON SPRINGS, Malheur NF. A Type II Incident Management Team (Gilpin) is assigned. Erratic winds and extremely dry conditions caused the fire to spot and make runs to the west and northwest.

FREEZEOUT, Wallowa-Whitman NF. A Type I Incident Management Team (Bailey) is assigned. The fire made major runs to the north and northeast gaining 800 acres in 1 1/2 hours. Some Forest roads are being closed in coordination with the Harney County Sheriff. Potential threats are to residents within 1 mile, Pine Creek School and radio facilities.

TWIN LAKES, Wallowa-Whitman NF. A Type I Incident Management Team (Liebersbach) is assigned. The fire is burning 12 miles north of Halfway, OR and is threatening Russell Lookout, Fish Lake, Indian Crossing campground and Lick Creek Guard Station. The fire is active on 100% of the perimeter, with most activity on the south end, along the ridge southeast of Fish Lake.

THOMASON COMPLEX, Wallowa-Whitman NF. A Type II Incident Management Team (Duke) is assigned. This complex is comprised of the ALDER CREEK, VANCE, HOLLOW LOG, GILL RANCH, YANDALL and CAYUSE RIDGE fires.

SHARP, Umatilla NF. A Type II Incident Management Team (Lukens) is assigned. The fire is located 26 miles north of Prairie City, OR.

BALDY, Oregon State. A State Team (Shults) is assigned. This fire is located 12 miles south southwest of Baker City.

POTATOE FLAT, Ochoco NF. A Type II Incident Management Team (Lindsey) is assigned. Four of the five fires are controlled. Rehab is starting.

HATCHERY COMPLEX, Wenatchee NF. A Type II Incident Management Team (Furlong) is assigned. Mop-up, patrol and rehab continues.

GREEN BASIN, Oregon State. This fire is located near Lostine. Fireline explosives are being utilized to close and improve the line.

Rocky Mountain Area Large Fires:

ROW, Grand Teton NP. A Type I Incident Management Team (Shaw) is assigned. The fire burned from sage into mixed conifers, creating several flare-ups that were suppressed by retardant drops. Seven structures in addition to the Pfeiffer Homestead, consisting of 4 historic buildings have been destroyed. Several homes just outside of the line are threatened.

FRAMUS, Craig District, BLM. High winds caused the fire to rapidly spread in heavy Pinon-Juniper and Sage. Threats are to powerlines, FAA microwave tower and structures within 2 miles.

Outlook: A RED FLAG WATCH has been posted for southwest and south-central Oregon for thunderstorms. An upper level trough of low pressure will move into the Pacific Northwest and the Great Basin Areas. This trough will produce widely scattered thunderstorms from the Washington and Oregon Cascades eastward into Idaho and western Wyoming. A cold front will drop southward through eastern Colorado and northeast New Mexico. Behind the front, a cool Canadian surface high pressure system will cover most of Montana, Wyoming, and eastern Colorado. A dry southwesterly flow of air will push into southern California and western Arizona. Southwest winds will be on the increase from northern California and Nevada into central Idaho. Large fires will continue to burn actively in Idaho and eastern Oregon. There is a good possibility of additional fire starts resulting from scattered thundershowers.
