Current Situation: Low to moderate fire danger was reported nationwide with the exception of southern Florida which is in very high fire danger. Minimal fire activity was reported across the country.

Outlook: A RED FLAG WATCH has been issued for low afternoon relative humidities in Florida. The potential for increased fire activity remains for southern Florida, and Arizona. Cooler temperatures and scattered thunderstorms in New Mexico will limit initial attack activity.

IN ALONG AND AHEAD OF THE LOW PRESSURE SYSTEMS WITH MORE WIDESPREAD
RAIN ALONG AND UNDER THE OCCLUDED FRONTS. RAIN SHOULD TAPER OFF TO
