INCIDENT MANAGEMENT SITUATION REPORT
WEDNESDAY 06/29/94 0530 MDT
NATIONAL PREPAREDNESS LEVEL III

Current Situation: Fire activity continued to increase in most of the western Geographic Areas again yesterday. Very high and extreme fire indices are being reported on several more units. A lack of initial attack and several national resources is hampering suppression efforts in most areas with fire activity.

National resource mobilization continued, although not as intense as the past few days, and that was mainly due to a lack of resources. Type I crews, medium helicopters, airtankers and miscellaneous overhead are in short supply.

Northwest Large Fires:

CHILOQUIN COMPLEX, Winema NF and Oregon State. Type II Incident Management Team (Bright) committed. This complex consists of three large fires and two smaller ones. The fires are located near Chiloquin, OR. Fires are all lined, blacked and in heavy mop up. Demobilization should start today or Thursday.

Western Great Basin Large Fires:

RATTLESNAKE, Las Vegas District, BLM. The fire is burning in the Gold Butte Wilderness Study Area in the Caliente Resource Area. Major threats are the WSA and Desert Tortoise habitat. The strategy was to use natural barriers and roads to burn out reporting erratic fire behavior with flame lengths up to 50 feet. All crews have been pulled from the line.

Eastern Great Basin Large Fires:

BOY SCOUT, Wasatch-Cache NF. A Type II Incident Management Team (Martin) is committed. Crews and air support have been able to hold the fire with little additional acreage lost. Spots ahead of the main fire are a concern. Retardant and water drops successfully held spots through the burning period yesterday. Structures and the Boy Scout Camp are currently not threatened.

COALBED, Moab District, BLM. A Type II Incident Management Team (Fitzgerald) is committed. No significant problems occurred yesterday.

California

South Zone Large Fires:

LUCAS COMPLEX, Sequoia NF. A Type I Incident Management Team (Harbour) is committed. This complex now includes the Peak fire.

SECOND, Cleveland NF and San Diego County. A Type I Incident Management Team (Dougherty) is committed. High temperatures, low humidities and rugged terrain are hampering firefighters efforts.

Southwest Area Large Fires:

PECK FIRE, Prescott NF. A Type II Incident Management Team (McGiver) committed. Another fire called CATCLAW is also being managed by this team.

PERKINS COMPLEX, Phoenix District, BLM. A Type II Incident Management Team (Whitney) is committed. The fire made major runs this afternoon, threatening subdivisions to the southeast. Serious control problems on the south and east flanks. Resource shortages are hampering suppression efforts.

COYOTE COMPLEX, Phoenix District, BLM. A Type II Incident Management Team is committed. This afternoon the community of Dolan, AZ., was evacuated, this involved approximately 100 people. No other information at this time.

JURASSIC FIRE, Phoenix District. BLM and Arizona State. There have been 12-15 homes evacuated, approximately 50 people. One home has been destroyed, and 2 are immediately threatened. A subdivision is threatened by the south and east spread of the fire.

RYAN COMPLEX, Cibola NF. A Type II Incident Management Team (Blackwell) is committed. Burn-out operations are continuing. Weather conditions continue to be a problem.

GAP FIRE, Lincoln NF. High winds and low relative humidities are hampering control efforts. Three structures were threatened for a short time.

Rocky Mountain Area Large Fires:

BUNIGER, Grand Junction District, BLM. A Type II Incident Management Team (Hart) is committed. Steep, inaccessible terrain and heavy fuels are hindering suppression work. There was heavy use of airtankers and helicopters yesterday. Firelines held with moderate activity.

FLETCHER II, Craig District, BLM. Good progress was made by hand crews. A flare up on the southeast perimeter delayed containment.

MORGAN and COX, Southern U. S. Agency, BIA. The Cox fire was held by use of airtankers. Structural plan is in place for Bonded. Fires are located in a high cultural resource area, all line construction must be approved by archeologists.

Outlook: A RED FLAG WATCH has been posted in Utah for hot and dry conditions along with dry thunderstorms. The southwestern U.S. will continue to be hot and dry with low relative humidities, thunderstorms will continue to develop. The Northwestern U.S. will be warm and mostly dry with a few clouds. Initial attack activity will continue in most of the western states. Large fires will continue to be active.

NORTHERN ALASKA FIRE WEATHER FORECAST FOR WEDNESDAY, JUNE 29 1994
 NATIONAL WEATHER SERVICE FAIRBANKS ALASKA
 ISSUED 9:30 AM ADT WEDNESDAY

UPPER SYNOPSIS AND MAP DISCUSSION. A
 UPPER LEVEL TROUGH IS LOCATED FROM FORT YUKON SOUTH TO
 DELTA. TO THE WEST OF THIS TROUGH THE ATMOSPHERE HAS STABILIZED
 AND WARMER DRIER CONDITIONS CAN BE EXPECTED. HOWEVER EAST OF
 THE TROUGH ENOUGH INSTABILITY EXISTS FOR ISOLATED CONVECTION
 TODAY. THIS TROUGH WILL DRIFT EAST AND WEAKEN NEAR THE ALCAN
 THURSDAY. TO THE WEST...LOW PRESSURE OVER THE CHUKCHI SEA WILL
 MOVE NORTHEAST TOWARD BARROW TODAY, BRINGING SOME MOISTURE INTO
 THE WESTERN KOBUK.

UPPER YUKON ZONE AND NORTHERN REGION
 CLDS/WX..MOSTLY SUNNY WEST. PARTLY TO MOSTLY CLOUDY WITH
 ISOLATED AFTERNOON SHOWERS AND THUNDERSTORMS KANDIK, FORTY MILE,
 AND TETLIN AREAS.
 MAX. TEMP..60'S UPPER YUKON; NEAR 70 DELTA WEST; 60-65 EAST OF
 DELTA.
 MIN. RH..30-45%
 WIND..SOUTHWEST TO NORTHWEST 5-10 MPH
 TSTMS..ISOLATED WET EAST OF DELTA.

FD 940629

SOUTHERN ALASKA FIRE WEATHER AND CANADIAN DROUGHT INDEX FORECASTS
 NATIONAL WEATHER SERVICE ANCHORAGE ALASKA
 900AM ADT June 29, 1994 FORECAST FOR TODAY

...WEATHER SYNOPSIS AND MAP DISCUSSION...

A WEAK LOW NEAR MIDDLETON ISLAND WILL SLOWLY DRIFT EAST AND MERGE INTO A SECOND LOW THAT IS MOVING ACROSS THE GULF OF ALASKA BY WEDNESDAY EVENING. ANOTHER WEAK LOW WILL DEVELOP IN THE SOUTHERN COOK INLET WEDNESDAY NIGHT AND MOVE EAST AS IT DISSIPATES BY THURSDAY AFTERNOON. THIS WILL KEEP THE CLOUDS IN ALONG THE NORTH GULF COAST UNTIL TONIGHT WITH A FEW SHOWERS AND KEEP SOUTHEAST ALASKA CLOUDY WITH RAIN THROUGH THURSDAY AFTERNOON. A LARGE AREA OF HIGH PRESSURE OVER THE EASTERN BERING SEA WILL MOVE INTO THE WESTERN INTERIOR BY THURSDAY MORNING AS A RIDGE DEVELOPS TO THE SOUTH FROM THIS HIGH THROUGH KODIAK ISLAND. THE RIDGE WILL THEN BEGIN TO DISSIPATE TO THE SOUTH AS A LARGE LOW APPROACHES FROM THE WESTERN ALEUTIANS AND MOVES TO NEAR SAINT PAUL BY FRIDAY MORNING. THE RIDGE WILL BRING DRYING CONDITIONS AND NORTHWEST UPPER AIR FLOW TO THE MCGRATH ZONES WEDNESDAY AFTERNOON THROUGH THURSDAY AFTERNOON. THEN THE LOW FROM THE WESTERN ALEUTIANS WILL PUSH ITS FRONT ONSHORE ALONG THE BERING SEA COAST BY FRIDAY MORNING SPREADING CLOUDY RAINY AND WINDY CONDITIONS OVER THE BRISTOL BAY AND BETHEL ZONES.

...MCGRATH ZONE INTERIOR...

.CLDS/WX...MOSTLY SUNNY WITH SCATTERED SHOWERS DEVELOPING IN THE AFTERNOON AND EVENING. HIGHS IN THE UPPER 50S TO MID 60S. WEST WINDS 10 TO 15 MPH IN THE AFTERNOON.

.TSTMS...ISOLATED AVERAGE WET NORTHEAST OF MCGRATH.
