**INCIDENT MANAGEMENT SITUATION REPORT**  
**THURSDAY, JULY 7, 1994 0530 MDT**  
**NATIONAL PREPAREDNESS LEVEL III**

Current Situation: A fireshelter deployment occurred July 6 on the South Canyon fire on the Grand Junction District. It is believed that twelve firefighters were fatally injured with two unaccounted for at this time. Other injuries were also reported.

Initial attack activity continued at a moderate pace in most of the western states. High winds in western Colorado and Arizona produced extreme fire behavior on large fires.

NICC reassigned crews, helicopters, caterers and shower units from the Southwest Area to the Great Basin and Rocky Mountain Areas. Airtankers were reassigned from the Eastern Great Basin to Colorado, and from California to Arizona.

**MITCHELL LAKE**, San Juan NF. A Type II Incident Management Team (Martin) is committed. The fire is located 13 miles north of Durango, CO. Smoke in the valley and along Highway 550 is causing problems.

**WAKE**, Montrose District, BLM. A Type II Incident Management Team (Hart) is committed. The fire is located near Hotchkiss, Co., approximately 60 miles east of Grand Junction. The fire has destroyed 3 structures and more are at risk.

BIG ROCKS COMPLEX, Lincoln NF. The BIG ROCKS/PATOS is contained. The PONCHO fire is still active and only 15% contained.

RATTLESNAKE, Coronado NF. A Type I Incident Management Team (Denton) is committed. The drying trend has resulted in increased fire behavior. The fire made a run out of east Turkey Creek Canyon toward Rustler Park, forcing the evacuation of the Rustler spike camp. A burnout operation is currently underway and with the support of airtankers has been successful in saving Rustler Park; however, the fire has overrun the indirect line on the northeast perimeter. Good progress being made on the burnout operations on the west, south and east flanks.

REDINGTON COMPLEX, Arizona State. Type II Incident Management Team (Bedlion) committed. A slopover on the RINCON fire increased the acreage 360 acres, near Happy Valley Lookout when the humidity dropped to 12%.

GREGERSON COMPLEX, Las Vegas District, BLM. A Type II Incident Management Team (Fitzgerald) is committed. The fire continues to burn in a wilderness

study area and poses a slight threat to Desert Turtle habitat. Demobilization is expected to begin tomorrow.

TWO KILN, Las Vegas, District, BLM. A Type I Incident Management Team (Birch) is committed. The fire was originally contained on 7/5, but low humidity and erratic winds caused the fire to jump control lines in the southwest corner. Erratic fire behavior yesterday is causing concern; the fire ran in fuels that normally would not ignite. Demobilization is expected to begin tomorrow.
