**NATIONAL PREPAREDNESS LEVEL III**

**Current Situation:** Washington, Idaho and Montana experienced lightning resulting in an increase in initial attack activity. Several fires in the Northwest and northern Idaho have escaped initial attack. Three Type I Incident Management Teams have been mobilized, as well as crews, overhead, aircraft, and equipment. Very high to extreme indices are being reported on most units and several areas have fire restrictions in effect.

Four MAPFS units have been mobilized to Boise from California and Colorado.

**Northwest Area Large Fires:**

**TYEE COMPLEX, Wenatche NF.** A Type I Incident Management Team (Wands) has been committed. Fire is still growing and is estimated to go to 800 acres before containment.

**MENDENHALL, Siskiyou NF.** A Type I Incident Management Team (Eddy) is committed. Fire was held on the east side to reduce structure threat.

**POORMAN, Okanogan NF.** A Type I Incident Management Team (Monahan) has been committed. No other information is available.

**HATCHERY COMPLEX, Wenatchee NF.** A Type I Incident Management Team (Porter) committed. No other information is available.
