INCIDENT MANAGEMENT SITUATION REPORT
WEDNESDAY, JULY 27, 1994 0530 MDT
NATIONAL PREPAREDNESS LEVEL III

Current Situation: Several fires in the Northern Rockies and Eastern Great Basin escaped initial attack, and have gained large fire status. NICC received a considerable amount of orders for overhead, crews, aircraft, caterers and showers for large fires in the Northwest and the Northern Rockies. Shortages of helicopters, airtankers, smokejumpers, and various other specialized overhead have been realized. Fire behavior is extreme as a result of the persistent hot weather pattern.

Four additional MAFFS units have been mobilized to Spokane for use in the Northwest.

Northwest Area Large Fires:

TYEE COMPLEX, Wenatche NF. A Type I Incident Management Team (Wands) is committed. The fire made a spectacular run in the late evening, dropping debris over 3 miles downwind. There is potential for it to reach 30,000 acres.

MENDENHALL, Siskiyou NF. A Type I Incident Management Team (Eddy) is committed. The fire is located 5 miles southwest of Cave Junction, Or. in steep, rugged terrain. This complex consists of 11 fires including 2 in the Kalmiopsis Wilderness.

POORMAN, Okanogan NF. A Type I Incident Management Team (Monahan) is committed. Good progress was made 7/26.

HATCHERY COMPLEX, Wenatchee NF. A Type I Incident Management Team (Porter) is committed. Threat exists to several cabins in the area. Fire is in very rugged, inaccessible terrain.

REPUBLIC COMPLEX, Colville NF. A Type II Incident Management Team (Furlong) is committed. Approximately 60% of the area within lines unburned. Fire is in steep, inaccessible terrain.

LE CLAIR, Warm Springs Agency BIA. Fire is burning rapidly with spotting ahead of the main fire during the day. Structures have been destroyed. There are 12 dozers in operation.

LAKEBED, Yakima Agency BIA. Low evening humidity caused flareups that breeched the line. Outlook is for continued growth. 8 dozers are being utilized.

LITTLE FERRY, Prineville District BLM. Fire is making runs northwest into Curry Canyon. Erratic winds have warranted indirect attack.

RIDDLE RANCH, Burns District BLM. Riddle Brothers Ranch is threatened. No additional information available.

OLSON COMPLEX, Colville NF. A tree plantation and wildlife refuge are currently threatened.

Southern Area Incidents

GEORGIA FLOOD. A Type II Incident Management Team (Kearney) is committed. The team is operating a receiving and distribution center for FEMA in Thomasville, GA.

Outlook: A RED FLAG WARNING has been posted for dry lightning and low humidity in western Montana. RED FLAG WATCH for strong westerly winds and low humidity over the eastern slopes of central Oregon. RED FLAG WATCH for dry lightning in the extreme northeast part of Oregon. The strong high pressure ridge remains stationary over the intermountain west. Widely scattered afternoon and evening thunderstorms are forecast for most of the interior west. Hot and dry conditions will remain. Fire activity is expected to increase in the north.

NORTHERN ALASKA FIRE WEATHER FORECAST FOR WEDNESDAY, JULY 27 1994
 NATIONAL WEATHER SERVICE FAIRBANKS ALASKA
 ISSUED 9:30 AM ADT WEDNESDAY

WEATHER SYNOPSIS AND MAP DISCUSSION.

A small low pressure area moved west through the Northern Region overnight and was located near Fairbanks this morning. Local rainfall amounts of up to 1.50" were reported northeast of Fairbanks in the Chena River Basin. Today the most unstable air is from the Northern Region west into the Tanana Zone. The atmosphere is very moist so thunderstorms will be wet with locally heavy rains. High pressure continues to keep western Alaska very warm and dry.

UPPER YUKON ZONE AND NORTHERN REGION

CLDS/WX..Partly sunny, warm and hazy with showers and widely scattered thunderstorms south of Fort Yukon and across the Northern Region. Mostly sunny north of Fort Yukon and Arctic Village areas.

MAX. TEMP...70-80 Northern Region; 75-85 Upper Yukon Zone

MIN. RH..45-55%

WIND..Northeast 5-15 mph Upper Yukon Zone; Mostly light southeast Northern Region 4-9 mph, becoming variable and gusty due to thunderstorms by late afternoon.

TSTMS..Widely scattered (wet) over south of Fort Yukon and Northern Region. Locally heavy rain possible with thunderstorms.
