INCIDENT MANAGEMENT SITUATION REPORT
MONDAY, AUGUST 1, 1994 - 0900 MDT
NATIONAL PREPAREDNESS LEVEL V

Current Situation: Fire activity moderated on several large fires and containment targets continue to be met on some of the smaller fires. The Northwest Area mobilized two additional Type II Incident Management Teams to fires on the Colville NF and Malheur NF, no other information is available about the fires. Numerous resources continue to be in short supply.

The 2nd Military batalion of Marines from Camp Pendleton will arrive in Wenatchee today. The Advanced Party will be at Fort Lewis today to task Military helicopters for the Rat Creek Fire in the Hatchery Complex. The Training Cadre are enroute to Fort Hood, Texas to begin the training of the 3rd and 4th Batalions today.

Northwest Area Large Fires:

TYEE COMPLEX, Wenatchee NF. A Type I Incident Management Team (Wands) is committed. The 11th Batalion, 11th Marine Regiment (Lt. Col. Rick Lindsey, Commander) are committed. Extreme fire behavior was experienced in some areas while the inversion in other areas limited fire behavior to isolated flare-ups. The inversion restricted air operations to the east end of the fire. The fire has burned to the edge of Lake Chelan. Infra-red imagery shows the majority of the fire area cooling, the problem area is at the north end of Navaree Coulee. Agressive fire suppresion efforts saved approximately 700 homes in the Chelan Butte and South Shore areas. Numerous road closures remain in effect.

HATCHERY COMPLEX, Wenatchee NF. A Type I Incident Management Team (Porter) is committed. The Round Mountain fire has been taken out of this complex. The HATCHERY and RAT CREEK fires now make up this complex. The fire is currently burning above Brender Creek. Brender, Brisky, Mission Creek and Yaksum Canyons have all been evacuated. Fireline explosives on the fires southern flank is helping establish a secure line and tie into Mountain Home Road.

ROUND MOUNTAIN COMPLEX, Wenatchee NF. A Type I Incident Management Team (Richer) is committed. Additional crews were expected to arrive last night. Spotted Owl and Sockeye Salmon habitat are threatened. The EIGHTMILE and BLACKJACK #1 fires are also included in this complex.

OKANOGAN COMPLEX, Okanogan NF. A Type I Incident Management Team (Monahan) and two Type II Incident Management Teams (Burdick & Johnson) are committed. The complex is comprised of the POORMAN, THUNDER, WAR CREEK, BURNT SAW and MISC. ABC fires.

KLICKITAT COMPLEX, Yakima Agency, BIA. A Type I Incident Management Team (Meuchel) is committed. This complex is comprised of 3 large fires: MCCREEDY, YEDLICK and HUCKLEBERRY and 12 small spot fires. Crews were able to hold all lines through the burning period yesterday.

LAKEBEDS, Yakima Agency, BIA. A Type II Incident Management Team (Lukens) is committed. The south branch of the main fire is staffed by the Buttler Complex (ORS).

MENDENHALL COMPLEX, Siskiyou NF. A Type I Incident Management Team (Eddy) is committed. Burnout operations were successfully completed yesterday. Plans are to transition the fire back to the Forest tomorrow.

LEMAH/ESCONDITO, Wenatchee NF. The fire is burning in a remote area of the Alpine Wilderness. There is no current threat to life or structures. The fire has burned over a portion of the Pacific Crest Trail, forcing a closure of a portion of the trail.

Eastern Great Basin Area Large Fires:

ELEVATOR CANYON, Burley District, BLM. A Type II Incident Management Team (Martin) is committed. Control problems include limited access, steep terrain, very dry fuels and hot weather. Bug killed conifer adjacent to the area was scheduled for burn-out during the night shift 7/31.

IDAHO CITY COMPLEX, Boise NF. A Type I Incident Management Team (Leibersbach) is committed. Complex consists of the BANNACK FIRE and numerous small fires. Fire behavior moderated yesterday, but flareups occurred on all fires and resulted in minor acreage increases. Butler's Type II Team is managing the eastern fires.

DUTCH JOE, Bridger-Teton NF. A Type II Incident Management Team (McAtee) is committed. The fire received a steady drizzle of rain Saturday night 7/30 and Sunday morning 7/31. As a result, considerable progress was made on line construction and mop-up.

RUBY, Payette NF. A Type I Incident Management Team (Johnson) is committed. The fire received thundershowers with heavy rain and lightning last night 7/31. This event interrupted helicopter shuttles and initiated several new ignitions outside the fire area. Resources were reassigned from the Ruby fire to deal with the new starts. No problems are anticipated.

Northern Rockies Area Large Fires:

NINEMILE COMPLEX, Lolo NF. A Type II Incident Management Team (Bennett) is committed. Cooler temperatures, higher humidities and diminished winds kept the fires from making any significant spread. Increase in acreage and costs are due to 2 new fires assigned to the complex.

HENRY PEAK, Northwestern Land Office, Montana State. A Type II Incident Management Team (Suenram) is committed. Crews are making slow progress on line construction due to steep terrain and heavy fuels. Air support helped keep the fire from making any significant growth.

ELK RIVER COMPLEX, Idaho State. A Type II Incident Management Team (Cowin) is committed. This complex consists of 50 lightning caused fires, encompassing approximately 300 square miles. The majority of the fires are on private and state lands. The largest fire is burning in felled and bucked timber.

AMBROSE SADDLE, Lolo NF. This fire is burning in a heavy concentration of slash approximately 12 miles west of Stevensville.

BLACK MOUNTAIN, Montana State. A Type II Incident Management Team (Bullis) is committed. The fire is threatening high value timber. There is heavy concentration of decked slash within the fireline.

North Zone - California Large Fires:

DILLON COMPLEX, Klamath NF. A Type I Incident Management Team (Lee) is committed. The complex consists of the following fires: JACK/XX/CEDAR, KELSEY/WILLIS, HARRINGTON/DIVIDE and 16 other contained fires. There is an estimated 1,174 chains of line yet to be constructed, much of this line is in broken and rocky terrain.

Western Great Basin Area Large Fires:

MOORE, Winnemucca District, BLM. A Type II Incident Management Team (Fitzgerald) is committed. Thirteen residences were saved through efforts of ground crews and airtankers. Eight more residences within 1/2 mile of the head of the fire are currently threatened. The fire is burning in sage and grass and is exhibiting very erratic fire behavior.

Outlook: A RED FLAG WARNING has been posted for Northern Idaho and Western Montana for hot, dry weather and dry lightning. Strong high pressure aloft will remain over the western states. Moist and unstable air covers most of the interior west resulting in mostly wet, scattered afternoon and evening thunderstorms. Dry lightning is forecast for Northern Idaho and Western Montana. Fire activity is expected to continue and probably increase in the Northern Rockies. Competition for resources will continue; however, the deployment of military resources will alleviate some of the crew demands.

SOUTHERN ALASKA FIRE WEATHER AND CANADIAN DROUGHT INDEX FORECASTS
 NATIONAL WEATHER SERVICE ANCHORAGE ALASKA
 900AM ADT August 1, 1994 FORECAST FOR TODAY

...WEATHER SYNOPSIS AND MAP DISCUSSION...

A WEAK LOW CENTER OVER THE GULF OF ANADYR IS MOVING NORTHWARD TO THE CHUKCHI SEA TONIGHT. THE ASSOCIATED FRONT EXTENDS IN AN ARC TO THE SOUTH CROSSING THE CHUKCHI SEA COAST NEAR BARROW AND CONTINUING SOUTHWARD INTO BRISTOL BAY HAS STALLED AGAINST THE UPPER RIDGE OVER THE EASTERN HALF OF THE MAINLAND. THE RIDGE WILL WEAKEN AND DRIFT EAST TO THE ALCAN BORDER TONIGHT ALLOWING THE FRONT TO MOVE EAST ACROSS THE STATE SPREADING COOL MOIST AIR OVER THE REMAINDER OF SOUTHWEST AND SOUTH CENTRAL ALASKA TODAY. THE EASTERN THIRD OF THE MAINLAND REMAINS UNSTABLE ENOUGH FOR CHANCE OF AFTERNOON AND EVENING THUNDERSTORM DEVELOPMENT OVER THE NORTHERN PORTION OF THE COPPER RIVER BASIN TODAY.

...MCGRATH ZONE INTERIOR...

.CLDS/WX...CLOUDY TO MOSTLY CLOUDY WITH SCATTERED SHOWERS.

.TSTMS...NONE.
