BEGAN. D51 WAS RELEASED AT 0900. THE FIRE WAS GRIDDED SEVERAL TIMES  
DURING THE MORNING AND AFTERNOON. NO OTHER HOT SPOTS WERE FOUND.  
THE FIRE WAS DEMOBbed AT 1600 AND PUT IN PATROL STATUS.

**INCIDENT MANAGEMENT SITUATION REPORT**  
**WEDNESDAY, AUGUST 3, 1994 - 0530 MDT**  
**NATIONAL PREPAREDNESS LEVEL V**

**Current Situation:** Significant initial attack activity continued in the Northwest, Northern Rockies and the central mountains of Idaho yesterday. Four Type II Incident Management Teams were mobilized in these areas for new escaped fires. Winds caused by thunderstorms hampered suppression efforts on large fires in the Northwest.

The NIFC Training Cadre has completed training the 20th Engineer Battalion, 1st Cavalry Division at Fort Hood, Texas. The 20th Engineers will deploy to the Idaho City Complex today. The 382nd Field Artillery, 1st Cavalry Division will be trained today and deployed to the Squaw Peak fire, Lolo NF tomorrow, 8/4.

Five CH-47 helicopters from the 214th Aviation Unit, Fort Lewis, WA. are assigned to the Hatchery Complex. Three additional CH-47's will be mobilized as they become available.

**Northwest Area Large Fires:**

**HATCHERY COMPLEX, Wenatchee NF.** A Type I Incident Management Team (Porter) and a State Team (Messenbrink) are committed. The complex is comprised of the HATCHERY and RAT CREEK fires. The south side of the Rat fire was very active, crowning and spotting over control lines. The Icicle irrigation system was damaged by a rock slide, the system was serving a large portion of the valley for irrigation and domestic use. A Level 1 evacuation alert remains in effect for West Wenatchee. Smoke continues to pose problems for air operations.

**ROUND MOUNTAIN COMPLEX, Wenatchee NF.** A Type I Incident Management Team (Richer) is committed. The complex is comprised of the ROUND MOUNTAIN, EIGHTMILE, BLACKJACK 1, BLACKJACK 2, LEMAH/ESCONDIDO. All the fires except Round Mountain are being managed in a confinement strategy. Efforts are being made to close and improve the control lines on the north and south flanks of the Round Mountain fire. Burnout operations have greatly improved the control lines. The fire is still a potential threat to a major powerline, residences, spotted owl habitat and sockeye salmon fisheries.

**TYEE COMPLEX, Wenatchee NF.** A Type I Incident Management Team (Wands) is committed. The 5th Battalion, 11th Marine Regiment (Lt. Col. Rick Lindsey, Commander) and the 1st Battalion, 5th Marine Regiment (Lt. Col. Dave Bonwit Commander) are committed. Yesterday afternoon there were major flame fronts in the Hornet and upper Mad River drainages. The flame front was still within the constructed secondary fireline along the ridge of Entiat Mountain. The projected incident size is now 142,000-152,000 acres. The fire is now heading towards roadless areas including Glacier Peak Wilderness.

**OKANOGAN COMPLEX, Okanogan NF.** A Type I Incident Management Team (Monahan) and two Type II Incident Management Teams (Burdick & Johnson) are committed. The complex is comprised of the POORMAN, THUNDER, WAR CREEK, BURNT SAW RAINBOW/BOULDER/BUTTE, and MISC. ABC fires. The Poorman and Burnt Saw are contained. Another 120 acre fire called Falls Creek was included in the Complex yesterday.

**KLICKITAT COMPLEX, Yakima Agency, BIA.** A Type I Incident Management Team (Meuchel) is committed. This complex is comprised of the McCREEDY, YEDLICK, HUCKLEBERRY and 12 small spot fires. The Huckleberry fire was spotting and very active yesterday.

**COPPER BUTTE, Colville NF.** A Type II Incident Management Team (Ridlington) is committed. A Type I Incident Management Team (Eddy) will transition today. The fire has continued to burn actively through the last 24 hours, moving into the Lambert Mountain area. This area contains subalpine fir and very thick lodgepole pine.

LAKEBEDS, Yakima Agency, BI. A Type II Incident Management Team (Lukens) is committed. The southern part of fire is managed by the Butler Complex. A blow out occurred on the west side and has spread to private land. Structure protection is being emphasized.

#### Eastern Great Basin Area Large Fires:

IDAHO CITY COMPLEX, Boise NF. A Type I Incident Management Team (Leibersbach) and a Type II Incident Management Team (Butler) are committed. The Complex consists of the BANNACK FIRE and numerous small fires. The threat to Idaho City is minimal. Flare-ups continued on unburned islands inside the perimeter, while spots continue to be found outside the perimeter. Crews continue securing line and burning out. A burnout of indirect line is anticipated over the next couple of days. The threat of a reburn exists due to the mosaic burn pattern.

ARBON, Idaho Falls District, BLM. A downed powerline is suspected to be the cause of this fire. The fire is burning in heavy PJ, sagebrush and grass.

#### Northern Rockies Area Large Fires:

LIVERMORE, Blackfeet Agency, BIA. A Type II Incident Management Team (Danforth) is committed. The fire is burning in timber approximately 5 miles northeast of St. Mary near Glacier National Park. The fire made a major run last evening requiring crews to be pulled from the line.

PERMA, Flathead Agency, BIA. A Type II Incident Management Team (Spradlin) is committed. This fire is burning on the south side of the Flathead River near Perma. The fire was very active yesterday, retardant was utilized to save a microwave site.

NINEMILE COMPLEX, Lolo NF. A Type II Incident Management Team (Bennett) is committed. This Complex is comprised of the BEAVER SLOUGH, SLAUGHTER HOUSE, SQUAW PEAK, BUTLER CREEK, WEST SIX MILE and ROCK CREEK fires. Thunderstorms over the area last evening pushed the Beaver Slough and Slaughterhouse fires over control lines. The Squaw Peak, Butler Creek, West Six Mile and Rock Creek fires are all contained.

HENRY PEAK, Northwestern Land Office, Montana State. A Type II Incident Management Team (Suenram) is committed. The line on the southwestern portion of the fire has been completed. Burnout of the southeastern corner continues. All lines have held and mop-up is progressing well.

ELK RIVER COMPLEX, Idaho Sta. A Type II Incident Manager. Team (Cowin) is committed. Six new fires were located, bringing the total to 74 fires in this complex. Fifty percent of the fires are in mop-up or patrol status and twenty percent are not staffed. The average fire size has increased due to active burning conditions.

**North Zone - California Large Fires:**

DILLON COMPLEX, Klamath NF. A Type I Incident Management Team (Lee) is committed. This complex is comprised of the JACK/XX/CEDAR, KELSEY/WILLIS, HARRINGTON/DIVIDE and 16 other contained fires. Efforts to build handline on the west side of Kelsey/Harrington continues, but is being hampered by smoke conditions which inhibit the ability of helicopters to deliver crews to the fire. The firing operation to Dillon Creek continues to be held.

**Outlook:** A RED FLAG WARNING has been posted for eastern Washington for dry lightning; and for the east slopes of the Oregon Cascades for strong west winds and low humidity. A RED FLAG WATCH has been posted for thunderstorms in western Washington. Strong high pressure will extend northward from Arizona through the Great Basin and Northern Rockies into British Columbia. A trough of low pressure will edge closer to the Washington and Oregon coasts. Moist and unstable air will result in widely scattered thunderstorms from eastern Washington and eastern Oregon across the northern Great Basin into the Rocky Mountain states. The thunderstorms in eastern Washington and parts of eastern Oregon and western Montana will generally be dry. Increased fire activity in the Northwest and Northern Rockies is anticipated with dry thunderstorms forecast. Resource availability continues to be low, however, Military personnel and helicopters are relieving some of the shortages.

93TA - FWS

NORTHERN ALASKA FIRE WEATHER FORECAST FOR WEDNESDAY, AUGUST 3 1994  
 NATIONAL WEATHER SERVICE FAIRBANKS ALASKA  
 ISSUED 9:30 AM ADT WEDNESDAY

WEATHER SYNOPSIS AND MAP DISCUSSION. ....

A dying frontal boundary is located north-south near the Alcan this morning. At the upper levels, high pressure ridges west from Canada into eastern Alaska. The most unstable air is again near the Alcan and east into the Yukon. To the west, a surface low near Bethel is expected to move north to Kotzebue by Thursday morning. Rain associated with this system is falling over southwest Alaska this morning and will spread north into the southern Galena and Tanana Zones today. By Friday the upper ridge should expand west into the central Interior bringing a return to drier conditions and very warm temperatures.

UPPER YUKON ZONE AND NORTHERN REGION .....

CLDS/WX..Partly sunny. Widely scattered afternoon thunderstorms southeast of Circle.

MAX. TEMP..70's

MIN. RH..35-50%

WIND..Light and variable, except gusty near thunderstorms.

TSTMS..Widely scattered southeast of Circle.

#D 940803

SOUTHERN ALASKA FIRE WEATHER AND CANADIAN DROUGHT INDEX FORECASTS  
 NATIONAL WEATHER SERVICE ANCHORAGE ALASKA  
 900AM ADT August 3, 1994 FORECAST FOR TODAY

...WEATHER SYNOPSIS AND MAP DISCUSSION...

LOW PRESSURE IS ALONG THE BRITISH COLUMBIA COAST JUST BELOW THE SOUTHEAST PANHANDLE. HIGH PRESSURE WITH DRY WEATHER EXTENDS OUT OF THE GULF OF ALASKA ACROSS THE YAKUTAT AREA INTO THE SOUTHERN CANADIAN YUKON. THE HIGH SHOULD PERSIST TODAY AND THURSDAY. AN ELONGATED WEAK LOW PRESSURE AND FRONTAL SYSTEM IS OVER THE BRISTOL BAY COASTAL AREA AND SOUTHWARD ACROSS THE UPPER ALASKAN PENINSULA INTO THE PACIFIC. THE NORTHERN SECTION OF THE LOW IS EXPECTED TO MOVE NORTHWARD TO THE SEWARD PENINSULA AREA WITH CONTINUED WEAKENING BY THURSDAY MORNING. THE FRONTAL SYSTEM SOUTHWARD FROM THE LOW SHOULD REMAIN NEARLY STATIONARY AND ALSO WEAKEN ACROSS THE EASTERN KUSKOKWIM VALLEY...EASTERN BRISTOL BAY COASTAL AND UPPER ALASKAN PENINSULA AREAS. MOISTURE WITH THIS SYSTEM SHOULD PERSIST DURING NEXT COUPLE OF DAYS WESTWARD FROM SOUTH CENTRAL ALASKA TO THE BERING SEA COAST. AFTERNOON AND EVENING CONVECTIVE SHOWERS AND THUNDERSTORMS ARE EXPECTED OVER AND TO NORTH AND EAST OF THE COPPER RIVER AREA AND WESTWARD ALONG THE ALASKAN RANGE INTO NORTHERN SECTIONS OF THE SUSITNA VALLEY. AS THE WEEKEND APPROACHES WARMER DRYER WEATHER IS EXPECTED ACROSS MOST OF THE SOUTH AS HIGH PRESSURE BUILDS OVER SOUTHERN ALASKA.

...MCGRATH ZONE INTERIOR...

.CLDS/WX...CLOUDY WITH OCCASIONAL RAIN. HIGHS IN THE MID 60S. LIGHT WINDS.

.TSTMS...NONE.
