THE HAJDUKOVICH CREEK FIRE SAW AN INCREASE IN ACTIVITY NORTH OF THE GERSTLE BISON FIELD TODAY IN THE EARLY AFTERNOON. TEMPERATURES WERE UP AND THE HUMIDITY WAS DOWN OVER YESTERDAY'S WEATHER. WHEN THE FIRE STARTED HEATING UP, THE AERIAL FIRING GROUP WENT INTO ACTION, FIRING THE BLOCK OF SPRUCE SOUTHEAST OF THE MI 1397 ROAD AND THE ALCAN HIGHWAY. MORE THAN 300 ACRES BURNED TO THE ALCAN AND THE DOZER LINE IN THIS LOCATION. THE SAME SPOTS STARTED OVER THE DOZER LINE TO THE EAST AND WERE CAUGHT BY THE SUPPRESSION FORCES ASSIGNED TO THE INCIDENT. A COUPLE OF SPOTS GOT ON THE NORTH SIDE OF THE ROAD AND WERE DROPPED ON BY THE KC-97 AND WERE HIT BY ENGINES SPRAYING WATER FROM THE ROAD. CREWS CONTINUED FUEL BREAK CONSTRUCTION FROM BETWEEN ROAD 1399 AND ROAD 1402. THEY ARE NOW ESTIMATING THURSDAY MID-DAY AS THEIR COMPLETION TIME. ABOUT 1930 HRS, FIRE ACTIVITY IN THE AREA SOUTH OF THE PRIVATE HOLDINGS BECAME VERY ACTIVE AND, BY 2030, HAD MOST OF THE FIRE PERSONNEL'S ATTENTION, AND THAT OF THE LANDOWNERS IN THE AREA. FIRE IN THE HARDWOODS AND POCKETS OF SPRUCE CHALLENGED THE FUEL BREAK WHERE IT INTERSECTS WITH ROAD 1399. ALTHOUGH THE FIRE ADVANCED UP BOTH SIDES OF THE ROAD AND SWELLED OUT FROM THE ROAD TO THE WEST, CREWS FROM THE FUEL BREAK AND ENGINES FROM NORTH OF THE GERSTLE BISON FIELDS WERE ORDERED IN TO HANDLE PRE-LAYED HOSE LINES, PUMPS, AND FOLD-A-TANKS, AND TO BOLSTER THE STRENGTH OF PATROL ENGINES ASSIGNED TO THE NEIGHBORHOOD. TWO HELICOPTERS, A B206L AND A B212, PROVIDED HELI-BUCKET SUPPORT, WHILE THE KC-97 WAS ORDERED BACK TO THE FIRE. UPON ARRIVAL, THE KC-97 COULD NOT DROP SOUTH OF THE NEIGHBORHOOD HE EVENTUALLY MADE HIS DROPS ON THE, NOW VERY ACTIVE, NORTHWEST CORNER WHERE THE FIRE PERIMETER CROSSES THE BISON WALKWAY. GROUND CREWS AND HELI-BUCKETS SUCCEEDED IN HOLDING THE FIRE TO ONLY A 2 ACRE SLOPOVER NORTH OF THE LINE. EVENING FIRE ACTIVITY WAS AGGRESSIVE ALL ALONG THE NORTH FLANK FROM 1399 ROAD TO THE NORTHWEST CORNER AND POINTS SOUTH. ACTIVITY IN THE MIDDLE OF THE BISON FIELD AT THE WEST END WAS MOVING EAST, AT TIMES, AS A WALL OF FLAMES. ACREAGE INCREASES ARE THOSE MAPPED DURING MID-AFTERNOON AND SOME KNOWN MOVEMENT UP ROAD 1399 IN THE EVENING. +460 ACRES.

BURNING IN BLACK SPRUCE AND MOVING TO THE EAST. +1120 ACRES.

**INCIDENT MANAGEMENT SITUATION REPORT**  
**WEDNESDAY, AUGUST 10, 1994 - 0530 MDT**  
**NATIONAL PREPAREDNESS LEVEL V**

**Current Situation:** Initial attack activity moderated in all areas. Large fires in central Idaho continued to experience erratic fire behavior and increased in size. Demobilization is increasing from the Northwest as a result of containment targets being met on more large fires.

Fire suppression training for the 14th Engineer Battalion, 555 Engineer Brigade, FT. Lewis, WA is in progress. Deployment to the Corral fire on the Payette NF is scheduled for tomorrow, 8/11.

Colonel Anthony Palermo USMC, is the Task Force Commander for the Marine contingent assigned to the Tyee, Copper Butte and Okanogan Complex/fires. Colonel William T. Maddox, USA, is the Task Force Commander for the Army contingent assigned to the Idaho City and Ninemile Complexes.

**Eastern Great Basin Area Large Fires:**

BLACKWELL COMPLEX, Payette NF. A Type I Incident Management Team (Birch) is committed. The complex is comprised of the BLACKWELL and 10 smaller fires. Yesterday, the fires made significant runs to the north. The primary concern remains structure protection along the east side of Payette Lake. Only the west flank of the fire is staffed at this time.

IDAHO CITY COMPLEX, Boise NF. A Type I Incident Management Team (Liebersbach) is committed. The 20th Engineer Battalion, 1st Calvary Division (Lt. Col. Bruce Porter, Commander) is committed. Eight Blackhawk helicopters from the 4th Battalion, 227 Aviation Regiment, 1st Calvary Division are assigned. The complex consists of the BANNACK, BEAR RIVER, RABBIT CREEK and numerous other small fires. Yesterday was the third day that crews were pulled off the fireline. The Rabbit Creek fire has jumped both control and contingency lines. The Bear River fire has spotted across the north fork of the Boise River. Sunset Lookout has been evacuated and structure protection has been initiated at Deer Park.

CORRAL CREEK, Payette NF. A Type I Incident Management Team (Johnson) is committed. Mapping yesterday reduced acreage and showed that the Corral Creek and the Warmsprings fires have not yet run together but are within 1/2 a mile of each other. Major runs occurred to the north after 1600 yesterday.

BLACK WILLOW, Fishlake NF. A Type I Incident Management Team (O'Bannon) is committed. Higher humidities, slightly lower temperatures, and reduced wind speeds assisted in containment efforts. The fireline has been reinforced in preparation of burn out operations.

EAST HARKER COMPLEX, Salt Lake City District, BLM. A Type II Incident Management Team (Fitzgerald) is committed. This complex is comprised of the EAST HARKER, the ERICKSON KNOLL, and the REILLY fires. Yesterday, rain doused the flames in all but the heaviest fuels. Driving and line work became hazardous resulting from the amount of precipitation, so most personnel were kept off the fireline yesterday.

THUNDERBOLT, Boise NF. A Type II Incident Management Team (Butler) is assigned. This fire made significant runs yesterday and continues to threaten Thunderbolt Lookout.

POWERLINE, Salmon NF. The TRAPPER fire is included with this fire and will not be reported as a separate entity.

**Northwest Area Large Fires:**

HATCHERY COMPLEX, Wenatchee NF. A Type I Incident Management Team (Porter) is committed. Five CH-47 helicopters from the 214th Aviation Unit, Fort Lewis, WA are assigned. The complex is comprised of the ALPINE LAKES, HATCHERY, RAT CREEK and LOWER VALLEY fires. Crews are working on lining wilderness parts of the Hatchery and Rat/Eightmile fires.

OKANOGAN COMPLEX, Okanogan NF. Type I Incident Management Team (Monahan) committed. The complex is comprised of the POORMAN, THUNDER, WAR CREEK, BURNT SAW RAINBOW/BOULDER/ BUTTE, and MISC. ABC fires. Helicopter bucket drops have nearly stopped the Boulder fire from creeping towards Stehekin. Cool and damp weather has aided firefighters in suppression efforts.

METHOW COMPLEX, Okanogan NF. A Type I Incident Management Team (Harbour) is committed. Warmer and dryer weather is returning to the area. The fire still poses some threat to local residential communities.

TYEE COMPLEX, Wenatchee NF. A Type I Incident Management Team (Wands) is committed. The 5th Battalion, 11th Marine Regiment (Lt. Col. Rick Lindsey, Commander) and the 1st Battalion, 5th Marine Regiment (Lt. Col. Dave Bonwit, Commander) are assigned. The fire continues to back down Entiat Mountain.

COPPER BUTTE, Colville NF. A Type I Incident Management Team (Eddy) is committed. Three CH-47 helicopters from the B/6-158 Aviation Regiment, USAR, Everett, WA are assigned. The fire continues to burn actively south of Mt. Leona.

SNAKE RIVER COMPLEX, Wallowa-Whitman NF. A Type II Incident Management Team (Phenix) is committed. This complex is comprised of the THORN CREEK, RAPID RIVER, TRIANGLE MOUNTAIN, SADDLE CREEK, HAAS HOLLOW, and SWAMP CREEK fires. The Rapid River fire experienced increased activity with drier weather and increased winds. The fire is now threatening 7 Devils campground, a guard station, historic cabins, Heaven's Gate lookout and Peregrin nest sites.

INDIAN ROCK, Malheur NF. A Type II Incident Management Team (Lindsey) is committed.

**Northern Rockies Area Large Fires:**

EAST FORK CHAMBERLIN, Montana State. A Type II Incident Management Team (Forrester) is committed. The 3/82nd Field Artillery Battalion, 1st Calvary Division (Lt. Col. Marcus Dudley) is assigned. Higher humidities have aided firefighters, keeping burning intensities down.

BORDER, Bitterroot NF. A Type II Incident Management Team (Spradlin) is committed. The fire is burning in heavy downed fuels with spotting along the west, north and east sides.

SAM GROUP, Clearwater NF. A Type II Incident Management Team (Cowin) is committed. This complex consists of the SAM, HIDDEN-FIX, and the MINNESAKA fires. The Hidden-Fix fire is burning actively in a recently logged unit. Crews made good progress on all fires.

TRAIL, Bitterroot NF. A Type II Incident Management Team (Wetzsteon) is committed. The Trail Complex has been broken up, the Trail and Border fires will be managed and reported individually.

BITTER-NEZ, Bitterroot NF. A Type II Incident Management Team (Bullis) is committed. The Bitter-Nez consists of numerous small fires scattered throughout the Selway Bitterroot Wilderness.

CK CREEK, Charles M. Russell NWR, FWS. Good progress is being made on strengthening line. Burn-out operations are continuing.

YELLOWSTONE COMPLEX, Yellowstone NP. This complex is comprised of the TELEMAR, PELICAN and TERN fires.

ST. JOE FIRES, Idaho Panhandle NF. A Type II Incident Management Team (Hart) is committed. Eight additional fires were added to the complex.

FREEZEOUT, Clearwater NF. This fire is being suppressed under a confinement strategy. It will no longer be reported unless significant activity occurs.

**North Zone - California Large Fires:**

DILLON COMPLEX, Klamath NF. A Type II Incident Management Team (Raley) is committed. This complex is comprised of the JACK/XX/CEDAR, KELSEY/WILLIS, HARRINGTON/DIVIDE and 16 other contained fires. Preparation is on going for the burnout operation planned for 8/10 to 8/14 which will increase total acres by about 6400 acres. The slopover in Dillon Creek is estimated to be about 200-400 acres.

HORIZON, Yosemite NP. This fire was a prescribed natural fire that threatened it's management attainment perimeter (MAP) boundary. Main trail to Ililouette drainage has been closed.

**Western Great Basin Large Fires:**

HOLBROOK, Carson City District BLM. The Sierra Front Type II Incident Management Team (Dondero) is assigned. The fire has burned approximately 1,200 acres in a wilderness study area, and is threatening an area of cultural significance.

KERN, Ely District, BLM. Crews are preparing line for a 200 acre burnout operation. Some torching still occurring, although the fire is primarily creeping through undergrowth. Erratic winds from passing thunderstorms continue to hamper control efforts. The strongest threats are to cultural resources, historic cabins, and private property.

BROWNCREST, Las Vegas District BLM. Yesterday, the fire received some precipitation enabling crews to make good progress towards containment. The threat to livestock still exists. Acreage increase due to remapping.

**Outlook:** A strong high pressure system centered over the Southwest is drawing subtropical moisture northward into most of the western, intermountain states. This moisture is producing scattered afternoon and evening thunderstorms. An upper level low just off the northwest corner of Washington is keeping the Pacific Northwest moist and cool. California and western Nevada will be sunny. Fire activity in the west is expected to moderate, and continued progress on large fires is anticipated. Heavy demobilization of resources from the Northwestern area could materialize by the end of the week. The potential for an increase in fire activity in California and western Nevada is increasing with the rising temperatures.

NORTHERN ALASKA FIRE WEATHER FORECAST - WEDNESDAY AUGUST 10 1994  
 NATIONAL WEATHER SERVICE FAIRBANKS ALASKA  
 ISSUED WEDNESDAY 9:30 AM ADT

WEATHER SYNOPSIS AND MAP DISCUSSION. ....

An upper level ridge will maintain warm, dry and stable conditions over the eastern Interior today. To the west, a strong low pressure system will continue moving north through the Bering Sea and pass west of St. Lawrence Island. An occluded front associated with the low brought strong winds to the west coast overnight and rain into the Galena Zone. This morning the front was located from west of Bettles south to Tanana. The front will stall today, with some clearing behind it in the interior Galena Zone.

UPPER YUKON ZONE AND NORTHERN REGION .....

CLDS/WX..Increasing clouds west of Fort Yukon and Fairbanks with showers developing.

Mostly sunny east.

MAX. TEMP..70's far west; 80's elsewhere.

MIN. RH..30% east to 50% west.

WIND...Locally south 10-20 mph through Alaska Range passes. Southwest 5-15 mph elsewhere.

TSTMS..None

#D 940810
