**INCIDENT MANAGEMENT SITUATION REPORT**  
**WEDNESDAY, AUGUST 17, 1994 - 0530 MDT**  
**NATIONAL PREPAREDNESS LEVEL V**

**Current Situation:** The Northern Rockies, Eastern Great Basin and California experienced increased fire activity. Type I Incident Management Teams were mobilized in the Eastern Great Basin and California; Type II Incident Management Teams were mobilized in the Eastern Great Basin, California and the Northern Rockies. Seven crews were mobilized from the Eastern Area to the Northern Rockies.

The 1st Battalion, 5th Marine Regiment, 1st Cavalry Division, has been reassigned from the Tye fire in the Northwest to the West Koozanusa Complex in the Northern Rockies. Deployment will occur today.

Colonel Anthony Palermo USMC, is the Task Force Commander of the two Marine Battalions assigned to the Tye fire and the West Koozanusa Complex. Colonel William T. Maddox, USA, is the Task Force Commander for three Battalions and one Aviation Battalion assigned to the Corral Creek and 17 Mile fires and the Idaho City Complex.

**Eastern Great Basin Area Large Fires:**

**CORRAL CREEK, Payette NF.** A Type I Incident Management Team (Johnson) is committed. The 14th Engineer Battalion, (Lt. Col. Perrenot, Commander) is committed. Helicopter support is being provided by the 4th Battalion, 227 Aviation Regiment, 1st Cavalry Division, USA (Lt. Col. Myles, Commander). Line construction began from upper Payette Lake to the south end of the fire. Successful burnout operations on the west flank should help slow the fire spread. Fire activity was not as intense yesterday; however, short range spotting and torching did occur.

**BLACKWELL COMPLEX, Payette NF.** A Type I Incident Management Team (Birch) is committed. This is a unified command with Idaho State Department of Lands, represented by Bill Williams. The complex is comprised of the BLACKWELL and 10 smaller fires. An inversion layer combined with downslope winds during the night caused significant runs yesterday and hampered helicopter operations until late in the day. The threat of structure loss continues at Burgdorf and Secesh.

**IDAHO CITY COMPLEX, Boise NF.** A Type I Incident Management Team (Liebersbach) is committed. The 20th Engineer Battalion, 1st Cavalry Division, USA (Lt. Col. Bruce Porter, Commander) is committed. The complex consists of the BANNOCK, BEAR RIVER, RABBIT CREEK and NORTH FORK fires. Extreme burning conditions continued, with 200 foot flame lengths reported. Current threat is to structures at Barber Flat, Sunset Lookout and numerous timber sales in the vicinity.

**THUNDERBOLT, Boise NF.** A Type II Incident Management Team (Butler) is committed. A Type I Incident Management Team (Denton) has been ordered. Helicopter support is being provided by the 4th Battalion, 227 Aviation Regiment, 1st Cavalry Division, USA (Lt. Col. Myles, Commander). The fire escaped containment lines to the north and east and crossed Roaring Creek, forcing crews to utilize safety zones.

**TIN CUP, Caribou NF.** No resources were assigned at the time of the report; however, a Type II Incident Management Team, six crews and two helicopters have been ordered.

**PIONEER CREEK, Challis NF.** A Type II Incident Management Team (McAtee) is committed. No new information was received.

**Northern Rockies Area Large Fires:**

YAAK-RED DRAGON COMPLEX, Kootenai NF. A Type I Incident Management Team (Meuchel) is committed. The 3/82nd Field Artillery Battalion, 1st Cavalry Division (Lt. Col. Marcus Dudley) is assigned. The complex is comprised of the 17 MILE, ZIMMERMAN, GUNSIGHT PEAK, PULPIT RIDGE and TURNER fires. The complex is divided into 2 branches and 6 zones. Local volunteers are assisting firefighting efforts where fires are close to homes.

WEST KOOCANUSA COMPLEX, Kootenai NF. A Type I Incident Management Team (Lee) is committed. The 1st Battalion, 5th Marine Regiment (Lt. Col. Dave Bonwit, Commander) is assigned. The complex consists of 4 fires between 50-200 acres. No other information received.

MCDONALD, Flathead NF. A Type II Incident Management Team (Martin) is committed. Ferry Basin Lookout was evacuated. Burnout operations are in progress.

CABINET COMPLEX, Kootenai NF. A Type II Incident Management Team has been ordered for a series of 34 fires on the Cabinet Ranger District. No other information available at this time.

STARVATION CREEK, Glacier NP. A Type II Incident Management Team (Danforth) is committed. The fire is threatening to cross the park boundary into Canada to the north and onto the Flathead NF to the west. The fire is threatening a cultural resource (cabin) and timber resources in Canada and on Forest Service land.

WOLF MOUNTAIN II COMPLEX, Montana State. A Type II Incident Management Team (Bosworth) is committed. The complex is comprised of 11 fires and new starts will be included. Acreage change is due to the reassignment of fires within the complex.

LITTLE WOLF, Flathead NF. A Type II Incident Management Team (Bennett) is committed. The fire made runs and was crowning, with spot fires advancing to 1/2 mile ahead of the main fire. A large part of the Flathead NF was closed yesterday.

PRIEST LAKE COMPLEX, Idaho Panhandle NF. A Type II Incident Management Team (Kechter) is committed. Crews were able to direct attack the fire due to favorable weather conditions. Line construction began on the Mankato fire.

BITTER-NEZ, Bitterroot NF. A Type II Incident Management Team (Bullis) is committed. The complex consists of the SADDLE, MAGRUDER, NICK and SAWTOOTH fires. The Wahoo fire was turned over to the Nezperce NF yesterday. Acreage increase is due to burnout on the Nick and better mapping of both Nick and Magruder.

ST. JOE COMPLEX, Idaho Panhandle NF. A Type II Incident Management Team (Hart) is committed. The 1956 N fire grew to 100 acres, mostly due to material rolling on steep slopes. The fire is burning in heavy, continuous fuels with few natural barriers.

FREEZEOUT, Clearwater NF. This fire is in confinement strategy; however, significant activity has occurred on this incident. Public advisories have been issued for heavy smoke along Highway 12. A meeting has been held with cooperating agencies to deal with safety concerns at Powell and along Highway 12. Contingency plans for public safety along the Lochsa River, state complexes and Powell Ranger Station are being developed. Although the fire is 8 miles from Powell and there is no immediate threat to property, structure protection specialists have been requested from Missoula Rural Fire Department to plan for structure protection. Retardant was utilized to protect Bear Mountain Lookout. Safety in the back country, in campgrounds, and along the highway are also primary concerns.

**Northwest Area Large Fires:**

TYEE COMPLEX, Wenatchee NF. A Type I Incident Management Team (Maupin) is committed. The 5th Battalion, 11th Marine Regiment (Lt. Col. Rick Lindsey, Commander) is assigned. Burn out operations continue; the progress is slow but effective.

SNAKE RIVER COMPLEX, Wallowa-Whitman NF. A Type I Incident Management Team (Bailey) is committed. Three CH-47 helicopters from the 214th Aviation Unit, USAR, Fort Lewis, WA are assigned. This complex is comprised of the RAPID RIVER, SADDLE CREEK, HAAS HOLLOW, and SWAMP CREEK fires. The fire pushed by 15-20 mph winds, caused the Rapid River fire to jump Bridge Creek and spotted to Cannonball Mountain and Saddle Camp. Ash fall has been noted up to eight miles from the northeast perimeter of the fire.

BOUNDARY, Wallowa-Whitman NF. A Type I Incident Management Team (Shaw) will transition on 8/18. The first big break for this fire came yesterday with the decrease in winds and effective burnout operations. Eight helicopters and an additional 200 Oregon Department of Forestry personnel were utilized in suppression efforts. Structure protection continues for the Tower Mountain area.

HATCHERY COMPLEX, Wenatchee NF. A Type II Incident Management Team (Furlong) is committed. Five CH-47 helicopters from the 214th Aviation Unit, Fort Lewis, WA are assigned. The complex is comprised of the ALPINE LAKES, HATCHERY, RAT CREEK and WILDERNESS fires. The Blackjack 1,2,3, and Escondito fires were not as active. The accessible areas of the Hatchery and Rat fires are well into mop-up status.

OKANOGAN COMPLEX, Okanogan NF. A Type I Incident Management Team (Monahan) is committed to the Boulder fire. The complex is comprised of the RAINBOW/BOULDER/BUTTE, POORMAN, BURNT SAW, FALLS CREEK and MISC. ABC fires.

**North Zone - California Large Fires:**

COTTONWOOD, Tahoe NF. A Type I Incident Management Team (Dougherty) is committed. The fire has split into two heads; one is running to the north/northeast towards a subdivision and the city of Loyalton and the other is running to the east/northeast towards Sardine and Babbitt lookouts. Evacuation briefings were in progress at the time of the report. The

fire started along Highway 89 and a portion of the highway 13 miles north of Truckee has been closed.

FISH, Mendocino Ranger Unit, California State. The fire is located northeast of Gualala on Fish Rock Road on the northern California coast. The fire has destroyed a yarder and dozer and is threatening timber, ranches and a christmas tree plantation.

DILLON COMPLEX, Klamath NF. A Type II Incident Management Team (Caves) is committed. This complex is comprised of the JACK/XX/CEDAR, KELSEY/WILLIS, HARRINGTON/DIVIDE and 16 other contained fires. The west flank of the fire continues to burn. Deep canyons and smoke considerations are making the use of airtankers ineffective. Burnout operations are continuing.

**South Zone California Large Fires:**

41, San Luis Obispo Ranger Unit, California State. The threat to Atascadero and San Luis Obispo has subsided somewhat due to lighter fuels, receding winds and rapid deployment of resources. Evacuations have occurred in the Serrano Ranch, Summit Hills, Tasajara Creek, Design Village, Santa Margarotee, Garden farms and numerous other areas within the proximity of the fire. Highway 41 between Morro Bay and Atascadero and Highway 101 between San Luis Obispo and Atascadero are closed.

HEATON, Angeles NF. A Type II Incident Management Team (Cooney) is committed. No problems are anticipated.

**Outlook:** Strong high pressure will be centered over the four corners area and will increase monsoon moisture. This will bring increased humidities and scattered thundershowers to Arizona, extreme southern Nevada and southern Utah. Widely scattered afternoon and evening thundershowers will persist over eastern Utah, western Colorado and western Wyoming. Isolated thundershowers will occur in extreme southern California. A dry westerly windflow will persist over the pacific northwest and the northern intermountain region. Fire activity is expected to continue in the Northern Rockies, Eastern Great Basin and California with heavy resource mobilization, especially to the Northern Rockies and Eastern Great Basin.

NORTHERN ALASKA FIRE WEATHER FORECAST FOR WEDNESDAY  
 NATIONAL WEATHER SERVICE FAIRBANKS ALASKA  
 ISSUED 9:30 AM ADT WEDNESDAY, AUGUST 17 1994

WEATHER SYNOPSIS AND MAP DISCUSSION. ....  
 STRONG UPPER LEVEL SOUTHWESTERLY FLOW CONTINUES TO BRING MUCH MOISTURE INTO ALL BUT THE EASTERN QUARTER OF ALASKA. A DEEP LOW PRESSURE SYSTEM NEAR THE BERING STRAIT AND HIGH PRESSURE IN THE GULF OF ALASKA COMBINED TO PRODUCE BRISK SOUTHWEST WINDS ACROSS MOST OF THE STATE. STRONGEST WINDS THIS MORNING ARE IN THE WEST. AS THIS LOW MOVES NORTHEAST INTO THE ARCTIC OCEAN TONIGHT THE WINDS WILL GRADUALLY DECREASE.

THE OVERALL PATTERN OF WESTERLY FLOW ALOFT WILL CONTINUE AND WILL FINALLY PUSH THE UPPER LEVEL RIDGE EAST AND OUT OF THE STATE. THIS IS A TYPICAL WET PATTERN AND WILL CONTINUE THROUGH THE WEEKEND.

UPPER YUKON ZONE AND NORTHERN REGION .....  
 CLDS/WX..CLOUDY AND WINDY WITH LIGHT RAIN, EXCEPT ONLY A FEW SPRINKLES SOUTHEAST OF CIRCLE AND ONLY A SLIGHT CHANCE OF RAIN EAST OF DELTA.  
 MAX. TEMP..60S, BUT TO MID 70S EAST OF DELTA.  
 MIN. RH..75%-85%, EXCEPT 35%-45% DELTA EAST.  
 WIND..SOUTHWEST WINDS 10-20 MPH. WINDS TO 25 MPH WITH STRONGER GUSTS THROUGH FUNNELED AREAS IN THE TANANA YUKON UPLANDS AND ALASKA RANGE PASSES.  
 TSTMS..NONE

SOUTHERN ALASKA FIRE WEATHER AND CANADIAN DROUGHT INDEX FORECASTS  
 NATIONAL WEATHER SERVICE ANCHORAGE ALASKA  
 900AM ADT August 17, 1994 FORECAST FOR TODAY

...WEATHER SYNOPSIS AND MAP DISCUSSION...

A SERIES OF LOWS FROM NORTH OF BARTER ISLAND ALONG THE ARCTIC COAST TO THE BERING STRAIT INTO THE NORTHERN BERING SEA WILL PROGRESS EAST TO NORTH OF THE NORTHWEST TERRITORY BY THURSDAY MORNING. A LARGE HIGH OVER THE SOUTHERN GULF OF ALASKA WITH A RIDGE INTO SOUTH CENTRAL ALASKA WILL BUILD TO THE WEST AND NORTH OVER BRISTOL BAY AND SOUTH CENTRAL ALASKA BY THURSDAY AFTERNOON. THE UPPER LEVEL AIR FLOW IS FROM SOUTHWEST TO NORTHEAST INTO THE YUKON KUSKOKWIM DELTA ACROSS THE INTERIOR, THIS WILL GRADUALLY BECOME MORE WEST SOUTHWEST AND SINK SOUTH OVER SOUTH CENTRAL ALASKA BY THURSDAY MORNING. THIS WILL BRING MORE HUMID CLOUDY WEATHER TO SOUTH CENTRAL ALASKA AND THE KENAI PENINSULA THROUGH THE END OF THE WEEK. HOWEVER, THIS WILL LIKELY ONLY RESULT IN HIGHER CLOUDS AND SLIGHTLY HIGHER HUMIDITIES FOR THE COPPER RIVER BASIN.

...MCGRATH ZONE INTERIOR...

.CLDS/WX...RAIN. HIGHS IN THE LOW TO MID 60S. SOUTHWEST WINDS 15 MPH.

.TSTMS...NONE.
