	ABOUT 1900 HRS, THE FIRE BECAME VERY ACTIVE IN THE SOUTHEAST CORNER WITH A STRONG SOUTH WIND BLOWING DOWN THE GERSTLE RIVER VALLEY. AT THIS WRITING, A ROUGH ESTIMATE IS A 1,000 ACRE INCREASE IN SIZE. THE FIRE SPOTTED ACROSS THE GERSTLE BISON FIELD OVER THE CONTROL LINE INTO SPRUCE ON THE SOUTH SIDE OF THE ALCAN HIGHWAY BETWEEN mi 1395 AND 1396. THE WIND-DRIVEN FIRE THEN SPOTTED ACROSS THE HIGHWAY AND WAS VERY ACTIVE IN THE BAND OF BLACK SPRUCE ON THE NORTH SIDE OF THE ALCAN BETWEEN THE HIGHWAY AND THE AG PROJECT FIELDS. THERE WAS NO INCREASE IN FIRE ACTIVITY NEAR THE RESIDENCES.

INCIDENT MANAGEMENT SITUATION REPORT
THURSDAY, AUGUST 18, 1994 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL V

Current Situation: Increased fire activity occurred in the Rocky Mountain Area. The Northern Rockies, Eastern Great Basin and California continue to experience problems on large fires. Mobilization of resources continued through NICC to these areas. Sixteen crews will be mobilized today to northern California from the Southwest Area. A Type I Incident Management Team was mobilized to the Eastern Great Basin to replace a Type I Incident Management Team that had met the 21 day commitment. One Type I Incident Management Team was released from the Northwest.

The 6th Army has been tasked to provide a 6th Battalion of personnel for suppression assistance to the Little Wolf fire, Flathead NF in the Northern Rockies. Orientation and training is scheduled for 8/19 & 20, with deployment scheduled for 8/21.

Colonel Anthony Palermo USMC, is the Task Force Commander of the two Marine Battalions assigned to the Tyee fire and the West Koozanusa Complex. Colonel William T. Maddox, USA, is the Task Force Commander for three Battalions and one Aviation Battalion assigned to the Corral Creek and 17 Mile fires and the Idaho City Complex.

Eastern Great Basin Area Large Fires:

CORRAL CREEK, Payette NF. A Type I Incident Management Team (Johnson) is committed. The 14th Engineer Battalion, (Lt. Col. Perrenot, Commander) is committed. Helicopter support is being provided by the 4th Battalion, 227 Aviation Regiment, 1st Cavalry Division, USA (Lt. Col. Myles, Commander). The fire continues to spread to the northeast. Line construction from upper Payette Lake to the south end of the fire is nearly complete. Structure protection is in place along the Salmon River.

BLACKWELL COMPLEX, Payette NF. A Type I Incident Management Team (Birch) is committed. This is a unified command with Idaho State Department of Lands, represented by Bill Williams. All the fires in this complex have burned together into one fire. A major burnout operation was successfully completed on the west flank, additional burnout operations are planned for today. Active torching and spotting occurred after the inversion lifted. The threat of structure loss continues at Burgdorf and Secesh.

IDAHO CITY COMPLEX, Boise NF. A Type I Incident Management Team (Liebersbach) is committed. The 20th Engineer Battalion, 1st Cavalry Division, USA (Lt. Col. Bruce Porter, Commander) is committed. The complex consists of the BANNOCK, BEAR RIVER, RABBIT CREEK and NORTH FORK fires. No long range spotting or runs were reported yesterday. Crews and dozers were able to make good progress flanking the southeast side. Threats continue to structures at Barber Flat, Deer Park area, Sunset Lookout and numerous timber sales in the vicinity.

THUNDERBOLT, Boise NF. A Type II Incident Management Team (Butler) is transitioning to a Type I Incident Management Team (Denton). Helicopter support is being provided by the 4th Battalion, 227 Aviation Regiment, 1st Cavalry Division, USA (Lt. Col. Myles, Commander). The fire continued to run past containment lines on the north and east sides, producing a 20,000 foot column. The fire is threatening the powerline to Yellowstone.

TIN CUP, Caribou NF. Three crews are on the fire with a Type II Incident Management Team, six crews and two helicopters on order.

PIONEER CREEK, Challis NF. A Type II Incident Management Team (McAtee) is committed. Loon Creek Guard Station and Diamond D Ranch are less than 1/4 mile from the fire. Structure protection is the primary objective of suppression action. Historic townsites and a mine are also threatened.

BEAVER MOUNTAIN, Wasatch-Cache National Forest. A Type II Incident Management Team (Coates) is committed. The fire is burning in heavy fuels near structures at Beaver Mountain Ski Area. Spotting is causing control problems.

Northern Rockies Area Large Fires:

YAAK-RED DRAGON COMPLEX, Kootenai NF. A Type I Incident Management Team (Meuchel) is committed. The 3/82nd Field Artillery Battalion, 1st Cavalry Division (Lt. Col. Marcus Dudley) is assigned. The complex is comprised of the 17 MILE, ZIMMERMAN, GUNSIGHT PEAK, PULPIT RIDGE, STUDEBAKER, FISH LAKES, UPPER FOWLER, TURNER and numerous smaller fires. Many 5-50 acre fires have not yet been mapped. Structure protection continues on the Zimmerman, Skinner and Darby fires. Two lookouts have been fire proofed. The Army Battalion is doing hot line construction and line patrol. Action has been taken on all priority 1 fires, planning has begun to assess the priority 2 fires.

LITTLE WOLF, Flathead NF. A Type II Incident Management Team (Bennett) is committed. The fire advanced 8 miles to the east, through convection firestorms with spotting 1 mile ahead of the main fire. The fire burned across the Sylvia Lake Campground Road. The fire is advancing towards Star Meadows with approximately 30 structures ranging from summer cabins to year around residences, a historic FS Guard Station and the Star Meadows Ranch.

WOLF MOUNTAIN II COMPLEX, Montana State. A Type II Incident Management Team (Bosworth) is committed. Containment of the smaller fires is allowing re-allocation of resources to the larger Twin Meadows fire. Several of the small fires are in patrol status.

KOOCANUSA COMPLEX, Kootenai NF. A Type I Incident Management Team (Lee) is committed. The 1st Battalion, 5th Marine Regiment, (Lt. Col. Dave Bonwit, Commander) is assigned. The complex consists of 30+ fires ranging from .1 to 300 acres. High commercial timber values are at risk and numerous active timber sales are threatened.

CABINET COMPLEX, Kootenai NF. A Type II Incident Management Team has been ordered for a series of 34 fires on the Cabinet Ranger District. The PLICK fire is 100 acres and the SMITH MOUNTAIN fire is 600 acres. The complex has assumed responsibility for fires burning west of Troy and Libby.

McDONALD, Flathead Agency, BIA. A Type II Incident Management Team (Martin) is committed. Extreme fire behavior with torching was reported. Extremely dry conditions with a warming trend for the weekend increases the chances of spotting. Helicopter bucket drops were very effective.

ST. JOE COMPLEX, Idaho Panhandle NF. A Type II Incident Management Team (Hart) is committed. The complex is comprised of 10 contained fires, 17 active holdover fires and 5 new starts. A 100 acre burnout is planned for today on the 1956 North fire. Very steep slopes, rolling materials and many burning and falling snags present safety and control problems on the 1956 North fire. The complex is providing protection to widespread urban interface and commercial timber (valued at 32K per acre).

PRIEST LAKE COMPLEX, Idaho Panhandle NF. A Type II Incident Management Team (Kechter) is committed. Moderate weather conditions allowed crews to continue to direct attack the

Mankato fire. Fireline explosives were used to construct fire line along the southwest flank where retardant had successfully held during initial attack.

STARVATION CREEK, Glacier NP. A Type II Incident Management Team (Danforth) is committed. The fire is spreading in a northeasterly direction towards the Canadian border. Any low-up or significant activity will seriously threaten the Canadian border, a culturally significant cabin and commercial timber on the Flathead NF.

BITTER-NEZ, Bitterroot NF. A Type II Incident Management Team (Bullis) is committed. The complex consists of the SADDLE, MAGRUDER, NICK and SAWTOOTH fires. Crews are working on containment and mop-up. Four crews are working on the Nick fire, holding the line with limited burnout. Helicopter bucket drops on Nick and Magruder are helping cool hotspots.

FREEZEOUT, Clearwater NF. This fire is in confinement strategy and will no longer be reported unless significant activity occurs.

The Fisher Peak fire will no longer be reported unless its status changes and meets the reporting criteria.

Northwest Area Large Fires:

TYEE CREEK, Wenatchee NF. A Type I Incident Management Team (Maupin) is committed, with a State Team (Flannigan) under unified command. The 5th Battalion, 11th Marine Regiment (Lt. Col. Rick Lindsey, Commander) is assigned. Five CH-47 helicopters from the 214th Aviation Unit, Fort Lewis, WA are assigned. Crews continue burnout operations on the northwest area of the fire.

SNAKE RIVER COMPLEX, Wallowa-Whitman NF. A Type I Incident Management Team (Bailey) is committed. Three CH-47 helicopters from the 214th Aviation Unit, USAR, Fort Lewis, WA are assigned. This complex is comprised of the RAPID RIVER, SADDLE CREEK, HAAS HOLLOW, and SWAMP CREEK fires. Crews reinforced line for a burnout planned for today. Lines have been constructed around historic cabins. Most firefighters are in spike camps due to access.

BOUNDARY, Wallowa-Whitman NF. A Type I Incident Management Team (Shaw) is committed. The current strategy is to line, burnout and mop-up areas that were previously burned out. Three helicopters will assist firefighters in this operation by dropping water as needed. The fire continues to burn in dead and down lodgepole pine and sub-alpine fir.

HATCHERY COMPLEX, Wenatchee NF. A Type II Incident Management Team (Furlong) is committed. Tumwater Canyon continued to burn, but movement on top of Icicle Ridge was minimal. All accessible portions of the fires are well into final mop-up.

METHOW COMPLEX, Okanogan NF. The Mazama camp has been disassembled, operations are continuing from 8 Mile camp.

OKANOGAN COMPLEX, Okanogan . . . A Type I Incident Management Team (Monahan) is committed to the Boulder fire. The complex is comprised of the RAINBOW/BOULDER/BUTTE, POORMAN, BURNT SAW, FALLS CREEK and MISC. ABC fires. Mop-up and demobilization is continuing and expected to increase.

North Zone - California Large Fires:

COTTONWOOD, Tahoe NF. A Type I Incident Management Team (Dougherty) is committed. The fire has burned into the Sierra Brooks subdivision, burning around residences. Engine strike teams are fighting the fire door to door. Constructed fireline on the south flank was lost and the fire jumped a major access road on the north and east sides.

FISH, Mendocino Ranger Unit, California State. The fire is located northeast of Qualala on Fish Rock Road on the northern California coast. Spotting has been a continuous problem.

DILLON COMPLEX, Klamath NF. A Type II Incident Management Team (Caves) is committed. This complex is comprised of the JACK/XX/CEDAR, KELSEY/WILLIS, HARRINGTON/DIVIDE and 16 other contained fires. The fire continues to back into Dillon Creek, efforts are to minimize acreage loss in Late Successional Reserve and Elk Valley, a significant religious Karuk site. Burnout operations are being utilized to secure the line.

WIDDOW, Lassen-Modoc Ranger Unit, California State. The fire is located west of Adin near the community of Lookout. An estimated 60 structures are threatened; evacuations are in effect in the Lookout Ranchette subdivision. One unoccupied residence and 2 vehicles have been destroyed.

Outlook: A dry westerly flow remains over the Pacific Northwest and the northern Intermountain area. The four corners high will pump monsoon moisture a bit further north today. Showers and thundershowers will concentrate over Arizona, New Mexico, southern Nevada, southern Utah, Colorado and extreme southern California. Demobilization is expected to continue from the Northwest and on crews that have met the 21 day commitment. Mobilization to fires in California, Northern Rockies and Eastern Great Basin is expected to continue. New fire activity should decrease as lightning activity moves to the east and no red flag conditions are predicted. Burning conditions on large fires will remain active.

SOUTHERN ALASKA FIRE WEATHER AND CANADIAN DROUGHT INDEX FORECASTS
 NATIONAL WEATHER SERVICE ANCHORAGE ALASKA
 900AM ADT August 18, 1994 FORECAST FOR TODAY

...WEATHER SYNOPSIS AND MAP DISCUSSION...

A RIDGE OF HIGH PRESSURE FROM THE SOUTHERN GULF OF ALASKA TO THE EASTERN BERING SEA WILL PERSIST IN THE EASTERN BERING SEA AS A RIDGE BUILD ACROSS THE SOUTHERN THIRD OF THE STATE TO THE EASTERN INTERIOR BY FRIDAY AFTERNOON. A WEAK AREA OF LOW PRESSURE WILL DEVELOP IN THE EASTERN GULF OF ALASKA BY THURSDAY NIGHT. A WEAK LOW WILL THEN DRIFT FROM NEAR CAPE YAKATAGA WEST TO THE BARREN ISLANDS BY SATURDAY NIGHT. THE COMBINATION OF THE HIGH IN THE EASTERN INTERIOR AND THIS WEAK LOW WILL RESULT IN CONTINUED DRY WARM WEATHER FOR THE COPPER RIVER BASIN INTO THE FRIDAY. THE UPPER LEVEL SOUTHWEST TO NORTHEAST AIR FLOW WILL CONTINUE INTO THE WEEKEND, THEREFORE KEEPING COOL MOIST CONDITIONS IN SOUTHWEST ALASKA.

...MCGRATH ZONE INTERIOR...

.CLDS/WX...MOSTLY CLOUDY WITH INTERMITTENT SPRINKLES ALONG THE ALASKA RANGE. HIGHS IN THE LOW 60S TO LOW 70S. SOUTHWEST WINDS 5 TO 10 MPH LOCALLY GUSTING TO 25 MPH.

.TSTMS...NONE.
