THE FIRE WAS BUFFETED BY 20 MPH WINDS, GENERALLY OUT OF THE
NORTHWEST, BUT TEMPERATURES ONLY GOT INTO THE MID-700'S. FIRE
RUNNING THROUGH THE CROWNS WAS TAKING PLACE BY 1230 IN THE NORTH
BLOCK WEST OF ROAD 1395.1 AND SOUTH OF THE ALCAN HIGHWAY AND IN THE
WEST BLOCK OF THE GERSTLE BISON FIELD. FIRE AT THE SOUTHEAST CORNER
MOVED TO WITHIN A MILE OF THE GERSTLE RIVER. FIRE BEHAVIOR WAS
AGGRESSIVE WITH EACH WIND GUST. IN THE BLOCK NORTH OF THE ALCAN,
A NUMBER OF SPOTS WEST OF ROAD 1395.1 BURNED TOGETHER AS A DOZER
LINE WAS COMPLETED WEST OF THE FIRE. BURNOUT OPERATIONS WERE
CONDUCTED ON BOTH SIDES OF THIS SECTION OF THE FIRE. ENGINE CREWS
CAUGHT ALL SPOT FIRES FROM THIS NORTH BLOCK. HAZARD REDUCTION WAS
COMPLETED AROUND A NUMBER OF HOMES IN THE RESIDENTIAL AREA, BY
ENGINE CREWS PATROLLING IN THE AREA. AT 1617, L.C. BOBO ASKED FOR
RETARDANT TO BE PUT ON THE NORTHERLY-MOST FINGER SOUTH OF THE
RESIDENTIAL AREA IN PREPARATION FOR ANY WIND SWITCH BECOMING
SOUTHERLY. THE KC-97 HAD ENGINE PROBLEMS AND NEVER LEFT FAIRBANKS.
BUCKET WORK WAS CONTINUED INTO THE EVENING TO REDUCE THE THREAT OF
ANY NORTHERLY RUN TODAY. ~600 ACRES.

INCIDENT MANAGEMENT SITUATION REPORT
FRIDAY, AUGUST 19, 1994 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL V

Current Situation: Moderate initial attack activity occurred throughout the west. Some large fires in the Northern Rockies, Eastern Great Basin and California continued to experience problems. Demobilization continues from the Northwest and on resources meeting the 31 day commitment.

A 6th military battalion from Ft. Lewis, WA will provide suppression assistance to the Little Wolf fire, Flathead NF. Orientation and training is scheduled for 8/19 & 20, with deployment scheduled for 8/21.

Colonel Anthony Palermo USMC, is the Task Force Commander of the two Marine Battalions assigned to the Tyee fire and the West Kooacanusa Complex. Colonel William T. Maddox, USA, is the Task Force Commander for three Battalions and one Aviation Battalion assigned to the Corral Creek and 17 Mile fires and the Idaho City Complex.

Eastern Great Basin Area Large Fires:

CORRAL CREEK, Payette NF. A Type I Incident Management Team (Johnson) is committed. The 14th Engineer Battalion, (Lt. Col. Perrenot, Commander) is committed. Helicopter support is being provided by the 4th Battalion, 227 Aviation Regiment, 1st Cavalry Division, USA (Lt. Col. Myles, Commander). The fire continues to spread to the northeast, backing down to Disappointment Lake. Line construction from upper Payette Lake to the south end of the fire is complete. Structure protection is in place along the Salmon River.

BLACKWELL COMPLEX, Payette NF. A Type I Incident Management Team (Birch) is committed. This is a unified command with Idaho State Department of Lands, represented by Bill Williams. All the fires in this complex have burned together into one fire. A major burnout operation continued on the west flank, reinforcing and extending the burnout from the previous day. The fire exhibited active torching and spotting after the inversion lifted. The threat of structure loss continues at Burgdorf and Secesh.

IDAHO CITY COMPLEX, Boise NF. A Type I Incident Management Team (Eddy) is committed. The 20th Engineer Battalion, 1st Cavalry Division, USA (Lt. Col. Bruce Porter, Commander) is committed. The complex consists of the BANNOCK, BEAR RIVER, RABBIT CREEK and NORTH FORK fires. Burnout of the west line was accomplished on the Rabbit Creek fire. Helicopter support was minimal due to heavy smoke. The east side exhibited extreme fire activity. Threats continue to structures at Barber Flat, Deer Park area, Sunset Lookout and numerous timber sales in the vicinity continue.

THUNDERBOLT, Boise NF. A Type I Incident Management Team (Denton) is committed. Helicopter support is being provided by the 4th Battalion, 227 Aviation Regiment, 1st Cavalry Division, USA (Lt. Col. Myles, Commander). Fire activity picked up almost immediately after the inversion broke. The burnout operation above the S. Fork Salmon River is going well. Efforts yesterday were concentrated on keeping the fire away from the powerline to Yellowstone.

PIONEER CREEK, Challis NF. A Type II Incident Management Team (McAtee) is committed. Loon Creek Guard Station and Diamond D Ranch are less than 1.4 mile from the fire. Structure protection is the primary objective of suppression action. Historic townsites and a mine are also threatened. Crews anchored a line at the mouth of Trail Creek and the Team will take over initial attack suppression duties in and around the the Loon Creek drainage.

PIONEER CREEK	CHF	ID	5,464	10	UNK	135	3	5	7	0	UNK	680K

Northern Rockies Area Large Fires:

LITTLE WOLF, Flathead NF. A Type II Incident Management Team (Bennett) is committed. Acreage increase was primarily due to more accurate mapping. There were no major advances in the fire front due to increased humidity and decreased winds. Favorable weather allowed aggressive action with airtankers, helicopters, dozers, engines and crews. The threat to about 40 homes ranging from summer cabins to year around residences, a historic FS Guard Station, Star Meadows Ranch and high value timber continues.

YAAK-RED DRAGON COMPLEX, Kootenai NF. A Type I Incident Management Team (Meuchel) is committed. The 3/82nd Field Artillery Battalion, 1st Cavalry Division (Lt. Col. Marcus Dudley) is assigned. The complex is comprised of the 17 MILE, ZIMMERMAN, PULPIT, STUDEBAKER, FISHFRY, FOWLER, TURNER and many other 5-100 acre fires that have not been mapped yet. Structure protection continues on the Zimmerman, Skinner and Dooley fires. Fires were more active late yesterday than the day before. A strong inversion limited the use air suppression and detection of new fires.

WOLF MOUNTAIN II COMPLEX, Montana State. A Type II Incident Management Team (Bosworth) is committed. This complex is now providing camp and logistical support for approximately 350 personnel from the Little Wolf fire.

KOOCANUSA COMPLEX, Kootenai NF. A Type I Incident Management Team (Lee) is committed. The 1st Battalion, 5th Marine Regiment, (Lt. Col. Dave Bonwit, Commander) is assigned. Four of the priority fires are now staffed. High commercial timber values are at risk with numerous active timber sales in the area.

CABINET COMPLEX, Kootenai NF. A Type II Incident Management Team (Groshong) is committed. The complex consists of an estimated 17 fires; SMITH PEAK - 1,000 acres, WILLARD 3 - 250 acres, ROBERTS MTN., PORCUPINE, SPRUCE, SURVEY - BETWEEN 30-100 acres and spot fires under 30 acres.

PILICK, Kootenai NF. A Type II Incident Management Team (Suenram) will take over the fire this morning.

ST. JOE COMPLEX, Idaho Panhandle NF. A Type II Incident Management Team (Hart) is committed. The complex is comprised of 12 contained fires, 5 holdover fires and 2 new starts. A 100 acre burnout was completed yesterday. Very steep slopes, rolling material and many burning and falling snags continue to present safety and control problems on the 1956 North fire. The complex is still providing protection to widespread urban interface and commercial timber.

PRIEST LAKE COMPLEX, Idaho Panhandle NF. A Type II Incident Management Team (Kechter) is committed. The fire was more active with higher temperatures and lower humidity yesterday.

STARVATION CREEK, Glacier NP. A Type II Incident Management Team (Danforth) is committed. The fire is continues to spread toward the Canadian border. A culturally significant cabin and high value timber is threatened.

BITTER-NEZ, Bitterroot NP. A Type II Incident Management Team (Rullis) is committed. The Team will transition today to another Type II Team. The complex consists of the SADDLE, MAGRUDER, NICK and SAWTOOTH fires. Crews are assisting the West Fork District with initial attack. Two crews are spiked out on the Nick Creek and continue to burnout and improve line.

YELLOWSTONE COMPLEX, Yellowstone NP. The Raven fire escaped control due to undetected hot spots coupled with high temperatures, low humidity and gusty winds.

Northwest Area Large Fires:

TYEE CREEK, Wenatchee NF. A Type I Incident Management Team (Maupin) is committed, with a State Team (Flannigan) under unified command. The 5th Battalion, 11th Marine Regiment (Lt. Col. Rick Lindsey, Commander) is assigned. Five CH-47 helicopters from the 214th Aviation Unit, Fort Lewis, WA are assigned. The estimated containment date has been moved up to 8/24. The perimeter of the fire has slightly increased due to the fire activity continuing in Billy and Cougar Creek drainages. Higher humidity and lower temperatures are hampering burnout operations, but four significant spots occurred across the line yesterday.

OKANOGAN COMPLEX, Okanogan NF. A Type I Incident Management Team (Monahan) is committed to the Boulder fire. The complex is comprised of the RAINBOW/BOULDER/BUTTE, POORMAN, BURNT SAW, FALLS CREEK and MISC. ABC fires. Mop-up is still in progress.

SNAKE RIVER COMPLEX, Wallowa-Whitman NF. A Type I Incident Management Team (Bailey) is committed. Three CH-47 helicopters from the 214th Aviation Unit, USAR, Fort Lewis, WA are assigned. This complex is comprised of the RAPID RIVER, SADDLE CREEK, HAAS HOLLOW, and SWAMP CREEK fires. Fire activity continues on the north end and on the southeast flank of the fire. The fire is smoldering, torching and making short runs within the fire perimeter.

BOUNDARY, Wallowa-Whitman NF. A Type I Incident Management Team (Shaw) is committed. The containment date has been moved up to 8/24.

HATCHERY COMPLEX, Wenatchee NF. A Type II Incident Management Team (Furlong) is committed. The last unburned portion of Tumwater Canyon in Slide Creek burned actively yesterday. Ten of the twelve crews are on the wilderness portion of the fire.

North Zone - California Large Fires:

COTTONWOOD, Tahoe NF. A Type I Incident Management Team (Dougherty) is committed. The fire made a major run toward Balls canyon to the east and was also spotting on the westside and made runs towards Sierra Blanche subdivision. Current threats are to a resource natural area, a ranch and hundreds of residences in Loyalton and Sierra Brooks.

FISH, Mendocino Ranger Unit, California State. No new information received.
 HOOPA COMPLEX, Hoopa Agency, BIA. Control has been attained for all but 2 fires.

DILLON COMPLEX, Klamath NF. A Type II Incident Management Team (Caves) is committed. This complex is comprised of the JACK/XX/CEDAR, KELSEY/WILLIS, HARRINGTON/DIVIDE and 16 other contained fires. Suppression action and mop-up continued at a favorable pace. Mop-up in the wilderness remains difficult due to inaccessibility.

Outlook: * A RED FLAG WATCH is posted for isolated dry thunderstorms and high Haines Indices late today in southwest Montana ***** The four corners high will pump monsoon moisture a bit further north into northeastern Nevada and northern Utah today. Wet thundershowers will remain Arizona, New Mexico, southern and northeastern Nevada, southern and central Utah, Colorado and extreme southern California. A Pacific low pressure system along the coast will slowly shift eastward resulting in increasing southwest winds across Washington, Oregon, northern California, Idaho and northern Nevada. The east slopes of the Oregon Cascades could approach red flag conditions. Demobilization of resources meeting the 21 day commitment and mobilization to fill in behind these resources will continue. Potential for new fire activity exists with forecasted dry lightning in Montana and winds in Oregon. Burning conditions on large fires will remain active once inversions have lifted.

SOUTHERN ALASKA FIRE WEATHER AND CANADIAN FRONTIER INDEX FORECASTS
 NATIONAL WEATHER SERVICE ANCHORAGE ALASKA
 800AM AET August 17, 1964 FORECAST FOR TODAY

...WEATHER SYNOPSIS AND MAP DISCUSSION...

A WEAKENING FRONTAL BOUNDARY IS NEARLY STATIONARY FROM THE SOUTHEAST PANHANDLE ACROSS THE NORTHERN GULF OF ALASKA AND WESTWARD ALONG THE SOUTH SIDE OF THE ALASKAN PENINSULA. WEAK LOW PRESSURE WAVES ARE ALONG THE FRONT OVER BRITISH COLUMBIA...THE PRINCE WILLIAM SOUND AND SOUTHWEST OF COLD BAY. THE EASTERN WAVES AREA ESSENTIALLY DRY. THE MOISTURE AROUND THE WESTERN WAVE SHOULD MOVE INTO THE WESTERN GULF BY TONIGHT. HIGH PRESSURE WITH DRY WEATHER IS ACROSS SOUTHERN ALASKA FROM THE BRISTOL BAY-KUSKOKWIM VALLEY AREAS EASTWARD ACROSS THE MATSU-KENAI PENINSULA AREAS AND ON EAST ACROSS THE COPPER RIVER AREA. HOWEVER, SWIN CHIFFE WINDS ARE BRINGING SOME LOW CLOUDS AND FOG OVER THE SOUTHWEST COAST. A LOW BEHIND OVER THE NORTHWEST SECTIONS OF THE BERING SEA IS EXPECTED TO MOVE NORTHEAST OVER THE BERING STRAITS BY EARLY SATURDAY THEN EASTWARD ACROSS NORTHERN ALASKA LATER IN THE WEEKEND. THIS LOW AND ITS ASSOCIATED OCCULDED FRONTAL SYSTEM SHOULD BRING CLOUDS AND RAIN OR SHOWERS INTO THE WEST TONIGHT AND SATURDAY AND ON ACROSS SOUTH-CENTRAL AND SOUTHEAST SECTIONS SATURDAY NIGHT AND SUNDAY. PROSPECTS FOR SIGNIFICANT RAINFALL FROM THIS SYSTEM IS BEST WEST AND NORTH OF THE ALASKAN RANGE WITH LESSER AMOUNTS OF SHOWERY PRECIPITATION OVER THE DRYER SOUTH-CENTRAL AND SOUTHEAST AREAS. AFTERNOON OR EVENING CONVECTIVE THUNDERSTORMS ARE NOT EXPECTED TODAY.

...MCGRATH ZONE INTERIOR...

...CLOUDS/WX...MOSTLY SUNNY...BUT INCREASING CLOUDS TOWARD EVENING. HIGHS MID 60S TO LOWER 70S. LIGHT SOUTHERLY WINDS.
 ...TSTMS...NONE.
