Name: MILEPOST 78 Cause: Human Admin: L&W

Narrative: Fire operations took full advantage of the lower temps and higher RHs today. 1 IHC crew is going direct on the east flank along the Tolovana River while other crews mop up and patrol that flank. On the west flank, the fire is 3/4 mile away from the Elliott Hwy in places and the IC will consider road closure if there is a significant wind shift out of the south. Meanwhile, crews pulled west flank hose where the fire is out. The 8 SMJs from the Hot Springs were demobed. Staffing now includes 2 IHCs, 7 EFF crews, 13 overhead, 8 SMJs, 2 light helicopters and 1 medium helicopter (which helped considerably with crew shuttles today). Cabin protection efforts continued out ahead of the fire. The decision was made to bring in a Type 2 Incident Management Team (Johnson) with actual transfer at the ICP at 2300 5/30. Bridge work at Milepost 45 is expected to be complete and the road re-opened by 0400 5/30.

Narrative: Cooler temperatures and slightly higher humidities slowed the spread of the fire. Containment efforts were concentrated south and east of Chena Hot Springs Road. No additional structures were damaged. Helicopter water drops were used to support line construction operations in Division Z. The Chena Hot Springs Resort remains closed for business and continues to support firefighters. Road closure was relocated to 39.5 mile at C.H.S.R. at the Granite Tors due to thick smoke hampering visibility along road. Red Squirrel Campground, at 42.8 mile, and Angel Rocks Trailhead (mile 48.9 CHSR) are also closed. I.C. Jandt + 347.
