| Narrative: Crews continued to prepare structures in Medfra for fire protection. An evacuation plan has been prepared for the community and fire camp. An indirect line is being cut from the North Fork of the Kuskokwim River to Scow Harry Creek about 1.5 miles NE of Medfra. Control is being hampered by poor visibility and limited communications. Heavy smoke has restricted the flight to position a repeater. Crews and supplies are being ferried by riverboat due to limited visibility for flights. Critical shortages are 1 Type II and 1 Type III helicopters with managers. There were two injuries, pulaski cuts. Individuals returned for duty. | | | | |
