Narrative: Crews continued structure protection activities at Kindanina Lake, Kantishna River, and West Twin Lake. One half of the North Star crew and four smokejumpers were moved to Mucha Lake to begin assessment of threat to structures. Pump and hose were expected to arrive by boat at Coy's cabin this afternoon. Improved weather allowed significant progress towards cabin protection objectives. Due to size of fire and large number of cabins in the area, high potential threat remains with the possible return to warmer, drier weather.
