Narrative: Smokejumpers previously assigned to cabin protection were reassigned to initial attack and were relocated by helicopter 847AL. The jumpers were later joined by 8 smokejumpers that deployed from Jumpship 17. Air Attack A-4 and Tankers T-266 and T-262 dropped retardant on the fire; however reduced visibility due to smoke hampered efforts for aerial support throughout 6/27. A boat from Slavin's cabin was employed to assist in Smokejumper transport. Steep terrain and limited, rocky routes from the Yukon River below slowed access to the fire. 12 smokejumpers are currently assigned to the fire.
