Narrative: Weather conditions moderated active burning around Chena Hot Springs and the West and North Forks of the Chena River. Structure protection continued to be successful in those areas. Smoldering and creeping ground fire with little open flame was reported. Chena Hot Springs Resort and adjacent private lands and structures continued to be threatened, despite the weather. Up to 53 structures in the West and North Fork of the Chena River area remain threatened depending on weather conditions. An additional 22 structures in the Angel Creek area remain threatened depending on weather conditions. An increase of 16,761 acres since last mapping was reported by infrared mapping aircraft 149Z. A total of 264 personnel are assigned to the fire.
