Narrative: Control efforts remain hampered by the lack of escape routes and safety zones. The fire in Sorrels Creek continued backing toward the Little Chena River in the direction of the Fairbanks Creek subdivision in heavy black spruce. A Red Flag warning was issued. Conditions resulted in torching and short runs in black spruce on the southern perimeter, this activity compromised a section of dozerline constructed earlier in the day. Movement of many resources to the southwest flank took place and resources worked to protect historical structures. Dozers continued making progress on the south perimeter. 598 total personnel currently staff this fire.
