 Narrative: The incident commander reported that the fire held at the containment line at the allotment. It also crossed the South Fork of the Koyukuk River northeast of the allotment and was burning at a tip of land inside a river bend. Work began on mop-up around the cabin allotment, with good progress reported. However, there remains a lot of saw work. Lower temps, higher RH's and cloud cover limited fire activity. The IC predicts that mop-up will run to the end of next week.Total personnel: 16
