**PDA7T1** Legal: 10N 16E 11 F Out Date: Owner: NCA  
# 424 Name: **Bolgen Creek** Cause: Lightning Admin: Danzhit  
Narrative: With the higher temperatures and lower RH's, most fires experienced some perimeter growth as well as internal burning. Mop-up continued around structures north of Quartz Creek and north of Central. Line resources continued to construct and reinforce containment and contingency lines to protect structures and pother improvements. Structure protection measures were maintained throughout the Central and Circle Hot Springs developed areas, and at numerous isolated residences, north d south of the Steese Highway. Helicopter bucket work, two CL-415's and one CL-215 were utilized on spot fires within Division Echo to keep the fire north and west of Crooked Creek. Helitack was flown into two spots northeast of the main Wolf Creek fire across Harrison Creek, to limit fire spread on the north side of Harrison Creek. Smokejumpers completed cabin protection in preparation for the continuation of the burnout along the north side of Crooked Creek. West of Central, and were extracted this morning prior to the planned burnout. The burnout, conducted this afternoon is ongoing at the time of this report and has been successful in keeping the fire north of Crooked Creek. Snag abatement along the Steese Highway from Central to Quartz Creek was initiated this afternoon. A population protection plan was completed and signed, and rehabilitation planning was initiated. Another town meeting was held in Central at 1800 this afternoon to share information on fire management activities, and community issues.
