Fire was reported by a Refuge employee at the NW end of Hidden Lake. Helicopter N72171 and one Forestry engine was sent to area. Nothing found, and original fire believed to be smoke from fire 608.

Fire was reported as a brush fire which had been knocked down and was smoldering in the duff. One Forestry engine and Prevention responded. The engine deployed water and did some saw work. Prevention investigation revealed fire cause was children smoking. Fire was contained and controlled and remains in monitor status.

Forestry was requested to respond to investigate a fire VFDs responded to the night before. Residual heat was found. They worked it and put it in monitor status. They were unable to determine the cause due to VFD working fire with foam.

VFD and Forestry responded to an escaped burn pile. Land owner extinguished pile while VFD and Forestry worked on escapement to wildlands. Wildland escapement was put out and the pile was turned over to land owner.

Probable human caused fire spread readily into the wildlands. 1 ASM, 1 CL-415, and 1 State Forestry engine responded.

FOREST ENGINE & helicopter requested to responded to wildfire caused by an airplane crash at 0820. Helicopter not available until 1000, one Engine responded with AST & local EMS & Fire Dept. personnel. Fire has been contained & put in monitor status.

Active - AFS

**PDA7T1**
**Legal:** 10N 16E 11 F  
**Name:** Bolgen Creek  
**Out Date:**  
**Cause:** Lightning  
**Admin:** Danzhit

**Narrative:** With sustained high temperatures and low RH`s, fire activity in the Complex varied from moderate to high. The Bolgen fire experienced a significant increase in fire activity, and currently has a six mile front along the west flank, north to Crooked Creek. The persistent smoke inversion moderated slightly this afternoon, allowing limited air tactical operations. Mop up continued around structures north of Quartz Creek, and north of Central. Structure protection measures were established and maintained throughout the Central and Circle Hot Springs developed area, and at numerous isolated residences, north and south of the Steese Highway. Line resources continued to reinforce containment and contingency lines to protect structures and other improvements. A local Jiggermault, and Nodwell were used to transport crews to critical locations in Division Echo. Burnout operations were completed in Echo this morning by the Payson and Flagstaff IHC`s. Burnout operations were ongoing in Foxtrot with the Boise and Sawtooth IHC`s. Alaska`s Minto, Pilot Station, Kiana and Koyuk crews were holding critical line concurrent with the burnout operations in Division Echo and Foxtrot. Helicopter bucket support was utilized on spot fires within Division Echo and Division Foxtrot to keep the fire north of Crooked Creek. Snag abatement measures along the Steese Highway from Central to Quartz Creek continued. Operational and Population Protection Planning for a red flag wind event 8/19 has been completed. Line resources continued to work on key areas in preparation for this wind event. Coordination with FEMA on cost apportionment for the Bolgen fire continued. Rehabilitation reconnaissance and planning continued. Total personnel on the Central Complex (where Bolgen Creek was once again the main concern): 627

Narrative: Fire remains in monitor status.

Narrative: Fire was flown today. One smoke was spotted in the interior and one on the south west perimeter of fire. Fire remains in monitor status. Acreage gain was noted on 8/16 when Jump ship reconnoitered fire and reported growth of 30-40 acres.

Narrative: Fire remains in monitor status.

Narrative: 1928- Fire was influenced by a 15 knot north wind which caused the fire to blow out to the southwest about 1.5 miles. East flank and the blow-out very active with torching occurring. Ash reported to be falling in Nikolai.

Narrative: Fire remains in monitor status.

Narrative: Fire not flown due to dense smoke. Remains in monitor status.
1900-10 knot wind out of the north pushed the se perimeter about a mile to the south onto the flats. This area is very active. West side of fire is fairly quiet. Air temperature at 1000` was 85.

Assigned Crews:
- Salcha
- Type 2
- Assigned: 8/16
Crews from River Spike completed structure protection and began indirect saw line west from cabins to the Tanana River. Conditions permitting burnout operations will begin on newly constructed line from the south end of Wolf Lake east to the Tanana River. Total Personnel: 73

**Assigned Crews:**
- **Delta #2**
- **Denali**
- **Northway #2**
- **Tanacross**
- **Tazlinas**
- **Tok**
- **tettin**

**Assigned:**
- 8/6
- 8/7
- 8/5
- 8/3
- 8/7
- 8/3
- 8/10

---

Structures and allotments continue to be threatened in Mansfield, Dot Lake, and Sand Creek areas. The fire received a steady west wind today which caused the east and southern perimeter of the fire to be active. The eastern edge of the fire advanced towards the Porcupine fire. Structure protection is in place at the cabin near H-80 on the north side of Lake Mansfield. Conditions permitting, personnel will construct a helispot and assess needs for structure and allotment protection in the Sand Creek Drainage. Total Personnel: 23

**Assigned Crews:**
- **Tanacross**
- **Northway #1**

**Assigned:**
- 8/3
- 8/11

---

Crews finished redirecting dozer line and saw line. Burnout operations to protect homes and allotments on the north side of the Alaska Highway will continue as this area and the village of Northway continue to be threatened. Fire activity was moderate. Total Personnel: 6

**Assigned Crews:**
- **Northway #1**

**Assigned:**
- 8/11

---

Fire not flown due to dense smoke. Remains in monitor status.

---

The southern edge of the fire continues to advance on both sides of the Taylor Highway. The Pike IHC began work to secure the slop over in the Mosquito Fork area northwest of Chicken in Lilliwig Creek. Engines continue to patrol the Taylor Highway. Total Personnel: 29

**Assigned Crews:**
- **Chicken #1**

**Assigned:**
- 8/3

---

Fire not flown due to dense smoke. Remains in monitor status.
Conditions were too smokey to fly recon over fire so uncertain of any acreage increase. Continued mop up at 51 and 45.5 mile extinguishing smokes inside burn perimeter. Completed cut out of Bear Creek and initiated McKay Creek trail cut out. Will continue with mop up tomorrow. Total personell assigned: 16.
