PDA7T1 Legal: 10N 16E 11 F Out Date: Owner: **NCA**
 # 424 Name: **Bolgen Creek** Cause: **Lightning** Admin: **Danzhit**
 Narrative: Fire activity was limited by heavy smoke throughout most of the operational period. The inversion had not mixed out by the time of this report. With temperatures and RH moderated by the smoke inversion, fire behavior was moderate and consisted primarily of individual and group tree torching, short crown runs, and short range spotting in areas with heavier fuels. The persistent smoke inversion held in the valleys throughout the day, grounding air operations. Mop-up continued around structures north of Quartz Creek, and north of Central. Structure protection measures were maintained throughout the Central and Circle Hot Springs developed area, and at numerous isolated residences, north and south of the Steese Highway. The critical area south of Central, and north of Crooked Creek was in excellent condition after extensive suppression activities, along with the moderated temperatures and higher RH over the past few days. Burnout operations adjacent to the Steese Highway, west of Central and north of Crooked Creek into the Porcupine Creek drainage were not implemented today due to the heavy smoke inversion. The fire crossed Porcupine Creek last evening, and burn plans have been updated to extend up the Porcupine Creek drainage west to Eagle Summit, and south to the Steese Highway. Snag abatement measures along the Steese Highway from Central to Quartz Creek continued. Personnel assigned to Central Complex (Bolgen Creek is the major component): 653.

Assigned Crews:

Beaver	Camp	Assigned:	8/14
Boise	Type 1		8/10
Copper River	Type 2		8/14
Flagstaff	Type 1		8/10

PDA4LC	Legal: T5N R13E	10 F	Out Date:	Owner: BLM
# 158	Name: Wolf Creek		Cause: Lightning	Admin: NOD

Narrative: The IMT in command of the Central Complex continued actions on spot fires north and east of the Wolf Creek fire. At the time of this report, it was anticipated that the troublesome spot northeast of the main burn would be in excellent condition by end of the 8/21 operational period. The Flagstaff IHC and Geronimo IHC were pulled off the Wolf Creek spot to assist with planned burnout operations back on the Central Complex. The Fort Yukon crew replaced the two IHC crews to complete mop-up on the north and east portions of Wolf Creek.
