# 424	Name: Bolgen Creek		Cause: Lightning	Admin: Danzhit

Narrative: Structure protection was maintained. However, structure protection measures for the structures north of Quartz Creek, and north and west of Central along Crooked Creek were reduced to primary hose lines and engine patrols. Crews continued to mop up and hold lines north of Crooked Creek in Divisions Charlie, Echo, Foxtrot, Gulf, and India north of the Steese Highway. Snag hazard abatement along the Steese Highway continued. Due to the lack of wind and high RH, planned additional burnout to clean up fuels in the northeast side of Division India was not implemented. Back hauling of equipment continued in areas where line construction/cold trailing and mop-up were completed. A community meeting was held at the Far North School at 1800. Personnel assigned to Central Complex (Bolgen Creek is the major component): 465.
