Narrative: Divisions Charlie, Delta, and Foxtrot were combined and placed in engine and air patrol status. Mop up and cold trailing line continued in Divisions Gulf, Echo along east end, and India along Steese Highway between DP11 and Eagle Summit. The remaining portions of Divisions Echo and India were patrolled by engine crews and aircraft. Weather conditions allowed the additional burnout on the northeast side of Division India to occur. Structure protection hose lays and equipment backhaul continued. Wrapping was removed from telephone risers. Snag hazard abatement along Steese Highway and in Division Gulf (areas where crews were working) continued. Higgin's AFS T-3 IMT met with Frye's NR T-1 IMT to begin transfer of command. Another community meeting was held at the Far North School at 1800. Personnel assigned to Central Complex (Bolgen Creek is the major component): 339.

Narrative: The fire was flown and reported that the natural containment lines are securely holding at this time. Fire behavior was moderate and most of the smoke was produced by continued smoldering. The shelter on Granite Tors Trail and the boardwalk at the trailhead remain undamaged by the fire at this time. It continues to creep toward the North Fork Chena River, between mile 38 and 41, along Chena Hotsprings Road, but the rate of spread is minimal. Firefighters continue to patrol and monitor Chena Hotsprings road and mop up along the boardwalk. No structures are currently threatened, but many trails remain closed within the Chena River State Recreation Area. Smokey conditions persist west of mile 35 of the Chena Hotsprings Road, with little smoke in the area between miles 35 and 56. 8 total personnel are assigned to this fire.

Narrative: Two type 1 crews were mobilized to secure the fire near the headwaters of the Little Chena River. Blackhawks were used for mobilization due to the heavy smoke conditions which limited the use of other aircraft. Winds continued to push the smoldering fire, particularly ridgetops where terrain funneled the wind through numerous saddles. Bucket drops by the Blackhawks aided firefighters as there are no water sources along the current perimeter. The fire has not made any significant gains, primarily due to cooler temperatures and higher humidities. The fire was flown, and officials are confident that current operation will contain the fire in the upper portion of the Lower Chena drainage. The remainder of the fire was patrolled by road with one additional pocket of heat being extinguished at 32 mile Steese Highway. Heavy smoke will continue to blow into Fairbanks until the northeast wind subsides. Total personnel:45
