 # 424 Name: **Bolgen Creek** Cause: Lightning Admin: Danzhit  
 Narrative: There was a flare-up in white spruce across from Central, along Crooked Creek, in Division Foxtrot. Crews pulled hose around the subdivision near Circle Hot Springs; found hose lay on a structure near Twelve Mile. Aerial reconnaissance of Wolf Creek, Bolgen Creek and Preacher Creek fires was completed. There was minimal fire activity on the Harry W. Fields allotment. Contact was made with Circle Tribal residents. Radio repeater batteries were changed. A public meeting was held. West flank of Division Echo staffed by helitack personnel; located all hot spots detected by palm IR and mopped-up. Crews continued systematic mop-up and structure protection along the Homestead Road. Division India was patrolled and held by engine crews. Road patrol monitored isolated interior torching; no control problems were experienced. Structure protection and maintaining access remained in place along the Porcupine Road. Snag hazard abatement along Steese Highway, Quartz Creek and Porcupine Road continued. Trees began to fall in new areas. Public interest remained high. Personnel assigned to Central Complex (Bolgen Creek is the major component):

Narrative: Precipitation during the night moderated fire behavior, but most of the perimeter south of Bettles remained active with steady creeping. Direct attack was initiated 1.25 miles south of the float pond from the original control line working southwest. One dozer built the first section of line. The crew made excellent progress on the north end of the fire, successfully stopping the advance of the fire to the VOR float pond. Backfired and used direct attack to tie portions of the fire together between drainages. Chena Hotshots and smokejumpers secured line farther ahead in an area of lakes. Two CL-415s provided air support. All defensive contingency lines around the community were completed. Total personnel: 34 (+21,295 acres).

Narrative: Dispatch received a report of tundra fire about 5 miles north of Bethel, located on north shore of a small lake, no structures were threatened. Another aircraft flew over fire and updated the coordinates. It was reported that a rain shower had passed over the fire, but it was still smoking. More rain showers were reported in the vicinity. No response was initiated due to current weather and no IA forces available in MCG. An observation flight is planned to occur 8/31 if the weather allows. Another aircraft in the area passed information that the only visible smoke was along perimeter that abuts the lake, no smokes were showing on remaining perimeter in tundra. Natural barriers are present to the south, north, northwest, and northeast.
